

Designed to provide comfortable patient positioning for gynaecology procedures, the top of the range G3 model features electric height, backrest and Trendelenburg tilt adjustment and a seat with cut-away design for gynaecology procedures. This model is supplied with leg supports, stainless steel debris tray, arm support loops and a matching D cushion for patient comfort. The backrest fully supports the patient in sitting and can be quickly lowered to provide a patient recovery position if required. A seat extension can be added as an option to fully support the patient in supine or prone lying.
