

PREMIUM LEVEL OF
COMFORT FOR A LABSTOOL

J757X

Mid Back Labtool

Ergonomic adjustability and comfort are the cornerstones of BodyBilt seating. The J757X features 10-point posture control, which allows the user to control their ergonomic level of comfort. The #7 seat pan is moderately contoured and fits the largest percentile of workers in regards to size, weight and frame. The J-Style mechanism is locked in a stationary position. Perfect for lab environments and medical facilities.

Contoured and Comfortable

Like all of our chairs, the J757X Mid Back Labstool features the BodyBilt seat pan, ergonomically engineered for seated comfort with levels of contouring to meet individual needs.

Adjust From Your Seat

The J757X Mid Back Labstool allows for 10 ergonomic adjustments for the user to control their own comfort level.

The J757X Mid Back Labstool with arms provides a slightly curved seat as well as comfortable mid-back along with a compatible seat pan that encourages proper ergonomic posture. This ergonomic chair is perfect for the busy executive who desires a balance between ease and usefulness. The J757X has a lever controlled pneumatic height adjustable 2 stage cylinder for easy height adjustment.

Purchase this ergonomic chair if perhaps you would like to increase day-to-day efficiency.
