August 30th, 2024

Dear Valued Customer,

This letter is to inform you of an update to the product shelf life as listed on the Certificate of Conformance for OP-4-20632.

Dymax shelf life is based on the total shelf life from the date of manufacture. The shelf life for OP-4-20632 was incorrectly calculating based on 194 days total shelf life instead of the correct 180 days. Going forward, the dates will correctly represent 180 days from the date of manufacture as intended.

Please refer to the below example.

Original: Lot# 4153160 manufactured on February 14, 2024, would have previously been expressed as:

<u>Item</u>	<u>MFG DATE</u>	<u>EXP DATE</u>
OP-4-20632	2/14/2024	8/26/2024

Update: the expiration date will correctly calculate based on 180-day total shelf life. Using the example above, the same lot would now be expressed as:

<u>Item</u>	<u>MFG DATE</u>	<u>EXP DATE</u>
OP-4-20632	2/14/2024	8/13/2024

There has been no change made to the product, manufacturing process, or total shelf life for the product. The total shelf life will remain 180 days (6-months) in alignment with the Product Data Sheet (PDS) unless otherwise indicated.

We apologize for any confusion this may have caused. If you still have any questions or concerns about this matter, please contact your account representative for more details.

We appreciate your business and continued confidence in Dymax products and services.

Best Regards,

Joseph Golin
