DELTAPLUS

ROSSI S3S : *Just feeling good in your sneakers .*

UPPER:

- **2mm** Crazy Horse Full Grain WPA leather: **smooth touch, water-repellent and cut resistant.**
- Breathable **2,8mm** 3D mesh lining: Covering **100%** of the shoe, **best comfort even under toe cap _ 330g/m2**
- **6mm** padded collar: Best comfort when putting the shoe _ **80kg/m³** *(stability)*
- **6mm** padded tongue: Best comfort when flexing the foot _ **50kg/m³** *(cushioning)*
- **50mm** Silver reflector: **Stay visible** no matter the conditions
- ESD electrostatic dissipative footwear, compliant with the standard 61340-4-3
- Composite Toe cap: **Thermal insulation** and **lightness**
- Composite plate: Stitched directly into the upper and **covering 100% of the foot** for a full protection
- **TOE-CAP SMOOTH EFFECT:** Sensation of freedom when putting the feet inside the shoe, under the toe cap
- **SUPPORT & CUSHION:** Maximizing stability and cushioning

FOOTBED:

- **Bi-density *Open-Cell*** Polyuréthane footbed: **Best elasticity and cushioning** during time
- **3mm** Drop:
  - **6mm Rear part: Shock absorber and cushioning**
  - **3mm Front part: Propulsion and stability**

OUTSOLE:

- Diagonal lines on Rear & Front part: Specially designed for the **best slip resistance**
- Angular cleats: Better slip resistance
- Optimized fluid evacuation channels
- Flexing line: Better comfort when flexing the foot
- **WEAR OFF INDICATOR:** Know when to change your shoe
- Monitoring of **density / hardness:** Optimal performance & comfort
- Hook lines under the arch of the foot for climbing ladders
- Outsole design especially optimized for Indoor floors: **best grip and shock absorption**

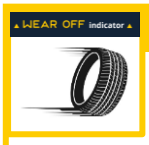

TEST RESULTS vs EN ISO 20345:2022

Slip resistance (SR test): +**40%**
Toe cap - compression resistance: **+61%**
Toe cap - impact resistance: +**22%**
Composite perforation-resistant insert (Type PS): +**28%**
Heel energy absorption: +**42%**
Cold Insulation (CI): **+23%**
Flexing resistance: **x20** above the standard

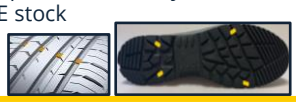

Weight	**Size 42: 615g**

TECHNOLOGIES

WEAR OFF INDICATOR

1. Know exactly when to change the shoe
2. Keep track of the performance of your shoe
3. Monitor your PPE stock

SUPPORT & CUSHION

1. 3D shaped heel counter to maximize stability
2. Anti torsion shank inside the sole
3. Monitoring of sole density / hardness for the best cushioning

TOE-CAP: SMOOTH EFFECT

1. Complex foam + lining construction
2. Smooth effect around the toes without feeling the toe-cap
3. Custom made strip ensuring optimal comfort even during the flexion of the shoe
