FORLIN = A series

HARMONY PERFECTLY DESIGNED

TEKA

The harmony of its lines give way to a simple and elegant design.

Discover the purity of its shapes with Teka's new ForLinea Series of sinks.

TEKA

DESIGN IN EVERY DETAIL

The straight lines of its surface in conjunction with its perfect geometry create a different, functional and elegant sink.

Its square decorative lid hides the plug hole, keeping the harmonic style of your basin.

EASY CLEANING

 $\diamond \diamond \diamond$

Its 15 radius offers a modern design that makes it easier to clean your basin and the water also flows smoothly.

2 IN 1 INSTALLATION

Two different options for a better integration in your kitchen: top or flush mount.

DEPTH **200 MM**

 $\widetilde{}$

The depth of its bowl makes it easier to wash larger pots. In addition, its stainless steel material has antiseptic properties for greater hygiene in your day-to-day life.

Because we trust in our quality standards, we give you the best: a Lifetime Warranty on our stainless steel against any manufacturing defects.

It also has SilentSmart technology that reduces noise by 50% when water drips or runs in the sink.
