

# DARE TO COOK **BEYOND** **YOUR LIMITS**

Discover the intelligent induction.  
Discover the new **MasterSense** series.

TEKA

**TEKA**

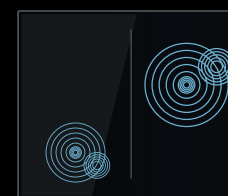

# TEMPERATURE CONTROLS ENSURE **PERFECT RESULTS**

The MasterSense induction hobs control and maintain the perfect temperature for your recipes. Simply select the desired function and the temperature sensors will do the rest.

## INNOVATIVE SYSTEM WITH **TEMPERATURE SENSORS**

THE REVOLUTIONARY SENSOR TECHNOLOGY  
ALLOWS US TO ACHIEVE EPIC RESULTS WITH A  
SINGLE TOUCH.

Thanks to this system, the temperature remains constant and uniform in every recipe. A smart solution that will become your kitchen assistant.

### **PRECISE AND SIMPLE, THAT'S WHAT COOKING WITH TEKA IS LIKE**

Having everything under control has never been easier and faster. **MultiSlider** allows you to select the power you want on each and every stove independently.

Slide your finger or press on the desired power for perfect results.

# ENJOY EXTRA HELP IN THE KITCHEN WITH THE **DIRECT ACCESS FUNCTIONS**

## THE MOST INTUITIVE WAY TO COOK.

Select the function that suits your recipe. The temperature is automatically adjusted and the sensors keep it constant at all times. An intuitive and effective way to cook delicious recipes.

The MasterSense Series has up to 9 direct access functions\*.

**WORLD  
NOVELTY**

### RICE

The only induction hob with automatic Rice Cooking function. Cooks rice to perfection from start to finish.

100°C

**NEW FUNCTION**

### CONFIT

Perfect for jams, brandades, sauces or a duck confit.

80°C

**NEW FUNCTION**

### POACHING

Ideal for poaching potatoes and onion for a perfect omelette.

100°C

### GRILLING

Its high temperature is designed for perfect searing of your red meats or vegetables.

200°C

### PAN FRYING

For delicate textures such as salmon or breast to delicious pancakes.

190°C

### DEEP FRYING

Thanks to its precision you will avoid the generation of toxic substances such as acrylamide.

180°C

### BOILING

Boiling 1 litre of water in 3 minutes is possible. Ideal for pasta.

100°C

### SIMMERING

The perfect temperature to cook soups and stews on a low heat.

98°C

### MELTING

You can easily melt butter or chocolate.

48°C

\*According to the model

## ABSOLUTE FLEXIBILITY WITH THE **FULLFLEX ZONE**

MAKE THE MOST OF THE SPACE.

Use the entire surface at the same time and cook with pans of different sizes and shapes.

On the FullFlex induction hobs you can cook with a pan of up to 400 mm.

## COOK FOR THE WHOLE FAMILY WITH THE **XL ZONE**

Pan for 10 people. With the 320mm XL Zone you can open the doors of your home and cook in large pans for great moments.

## YOUR BARBECUES NOW ON INDUCTION **WITH THE FLEX ZONE**

COOK WITH ANY TYPE OF PAN ANYWHERE IN THE FLEX ZONE. AN IDEAL AREA FOR GRILLS AND TEPPANYAKIS.

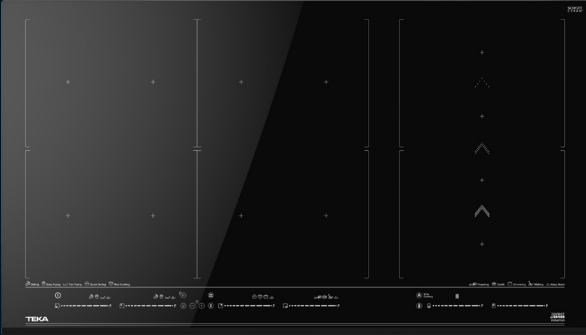

In addition, the Flex zone incorporates the **SlideCooking** function that allows you to change power by sliding the pan across the flex zone. You can cook on high heat at the front, medium heat at the centre and keep your dishes warm at the back of the hob, all without touching the hob.

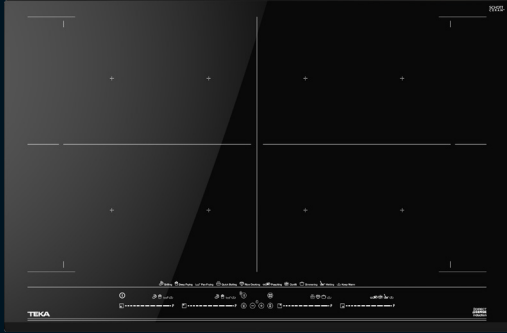

MASTERSENSE FULLFLEX

**DIRECTSENSE IZF 99700 MST BK**

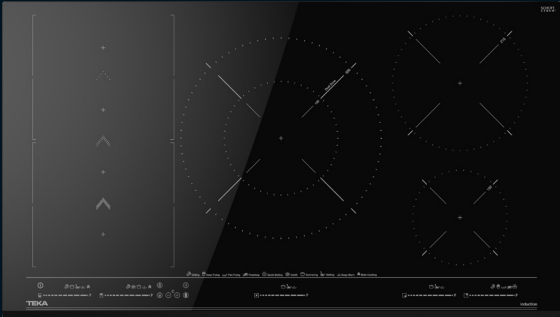

FullFlex Induction  
10 cooking modes:  
4 Flex zones Ø 263 x 195 mm  
1 Flex zone with SlideCooking function: 2 x Ø 253 x 195 mm  
Touch control MultiSlider  
Fast-Click Installation System  
Power Plus Function  
Shortcut functions: Grilling, Pan Frying, Deep Frying, Boiling,  
Simmering, Melting, Confit, Poaching, Rice  
Stop and Go Function  
Timer  
Child Lock  
Acoustic Alarm  
Mute Function  
Automatic safety disconnection  
Residual heat indicator  
Maximum Nominal Power: 11.100 W

**DIRECTSENSE IZF 88700 MST BK**

FullFlex Induction  
7 cooking modes:  
4 Flex zones Ø 297 x 198 mm
