

INTRODUCING

NEO SERIES

The oven, reimagined

TEKA

DESIGNED TO SHINE, **BUILT TO LAST**

In the pursuit of excellence, we never settle. Good is never enough when we know it can be better. That's why we've taken our best-selling oven range—a trusted companion in countless kitchens—and elevated it to a whole new level.

Designed to shine and built to last, this is more than just an upgrade; it's a transformation. We've reimagined every detail to create an oven that doesn't just cook—it inspires.

- Push-Pull knobs
- Flat Stainless Steel panel
- Door square pattern
- Wider and colored display
- Ergonomic handle
- T-Jewel
- Seamless combination
- Colors for every style
- For all spaces

PUSH-PULL KNOBS

We refused to settle for ordinary, so we redefined control. Our pop-in pop-out knobs don't just adjust, they offer a sleek design and effortless precision, making every adjustment smooth and exact. Because great control should feel as good as it looks.

FLAT STAINLESS STEEL PANEL

The oven's panel has been crafted from flat stainless steel. With its minimalist design, it ensures durability and ease of maintenance, merging simplicity and functionality to create an oven that brings a new level of beauty and purpose to your kitchen.

DOOR SQUARE PATTERN

The door pattern has been updated, now featuring a square pattern that blends with the oven's design, adding a modern flair to its overall look.

WIDER AND COLORED **DISPLAY**

Now 35% larger, the display has been redesigned to enhance the readability of the digits. With color indicators, it's designed to be more intuitive, giving a seamless experience at a glance.

ERGONOMIC HANDLE

Every detail matters, and the new 29 mm height handle is designed to reflect that. Offering a comfortable and secure grip, it provides a refined, fluid feel and perfect integration with the oven. It's not just a handle - it's a statement of modern design.

T-JEWEL

The handle features a "T" logo jewel, a unique feature that adds a touch of distinction. This elegant detail embodies sophistication and refinement, elevating the design and the overall aesthetic of the oven.

SEAMLESS COMBINATION

The oven can also be paired with a microwave from the same range, offering a seamless combination for your kitchen. Whether placed side by side or stacked, you can arrange them in a way that best suits your space and needs, creating a cohesive and functional cooking setup without compromising on style.

COLORS FOR EVERY STYLE

Cooking is an art, and your tools should reflect that. A perfect blend of design and performance that it's available in three colors: white, full black, and stainless steel. It seamlessly fits into any kitchen, complementing various styles, always ensuring exceptional cooking results.

FOR ALL SPACES

The oven is also available in 3 compact models, perfect for those with limited space but who still want a unique centerpiece in their kitchen.

Crafted to provide outstanding cooking performance while effortlessly fitting into smaller spaces, compact models maintains both style and functionality, making it an excellent choice for your kitchen, regardless of size.

CREATED FOR COOKING

Step into the future of effortless cooking with the CHEF function, your culinary shortcut to perfection. With just a few simple steps, select from a variety of automatic programs tailored to popular recipes. Craving crispy perfection? The AirFryer function is your new go-to. Looking for a healthier touch? Our EasySteam models take your everyday cooking to the next level.

- CHEF functions
- Up to 300°C of cooking
- EasySteam models
- AirFry models

CHEF FUNCTIONS

The new Chef function offers ten automatic programs, each fine-tuned for different recipes, adjusting temperature and cooking time for flawless results every time. Whether you're preparing roast meat, fish, lasagna, or freshly baked bread, the perfect meal is always guaranteed.

Truly effortless to use

1. Choose a recipe
2. Specify the kg
3. Set the temperature
4. Adjust the time

... and let the oven handle the rest for perfect results!

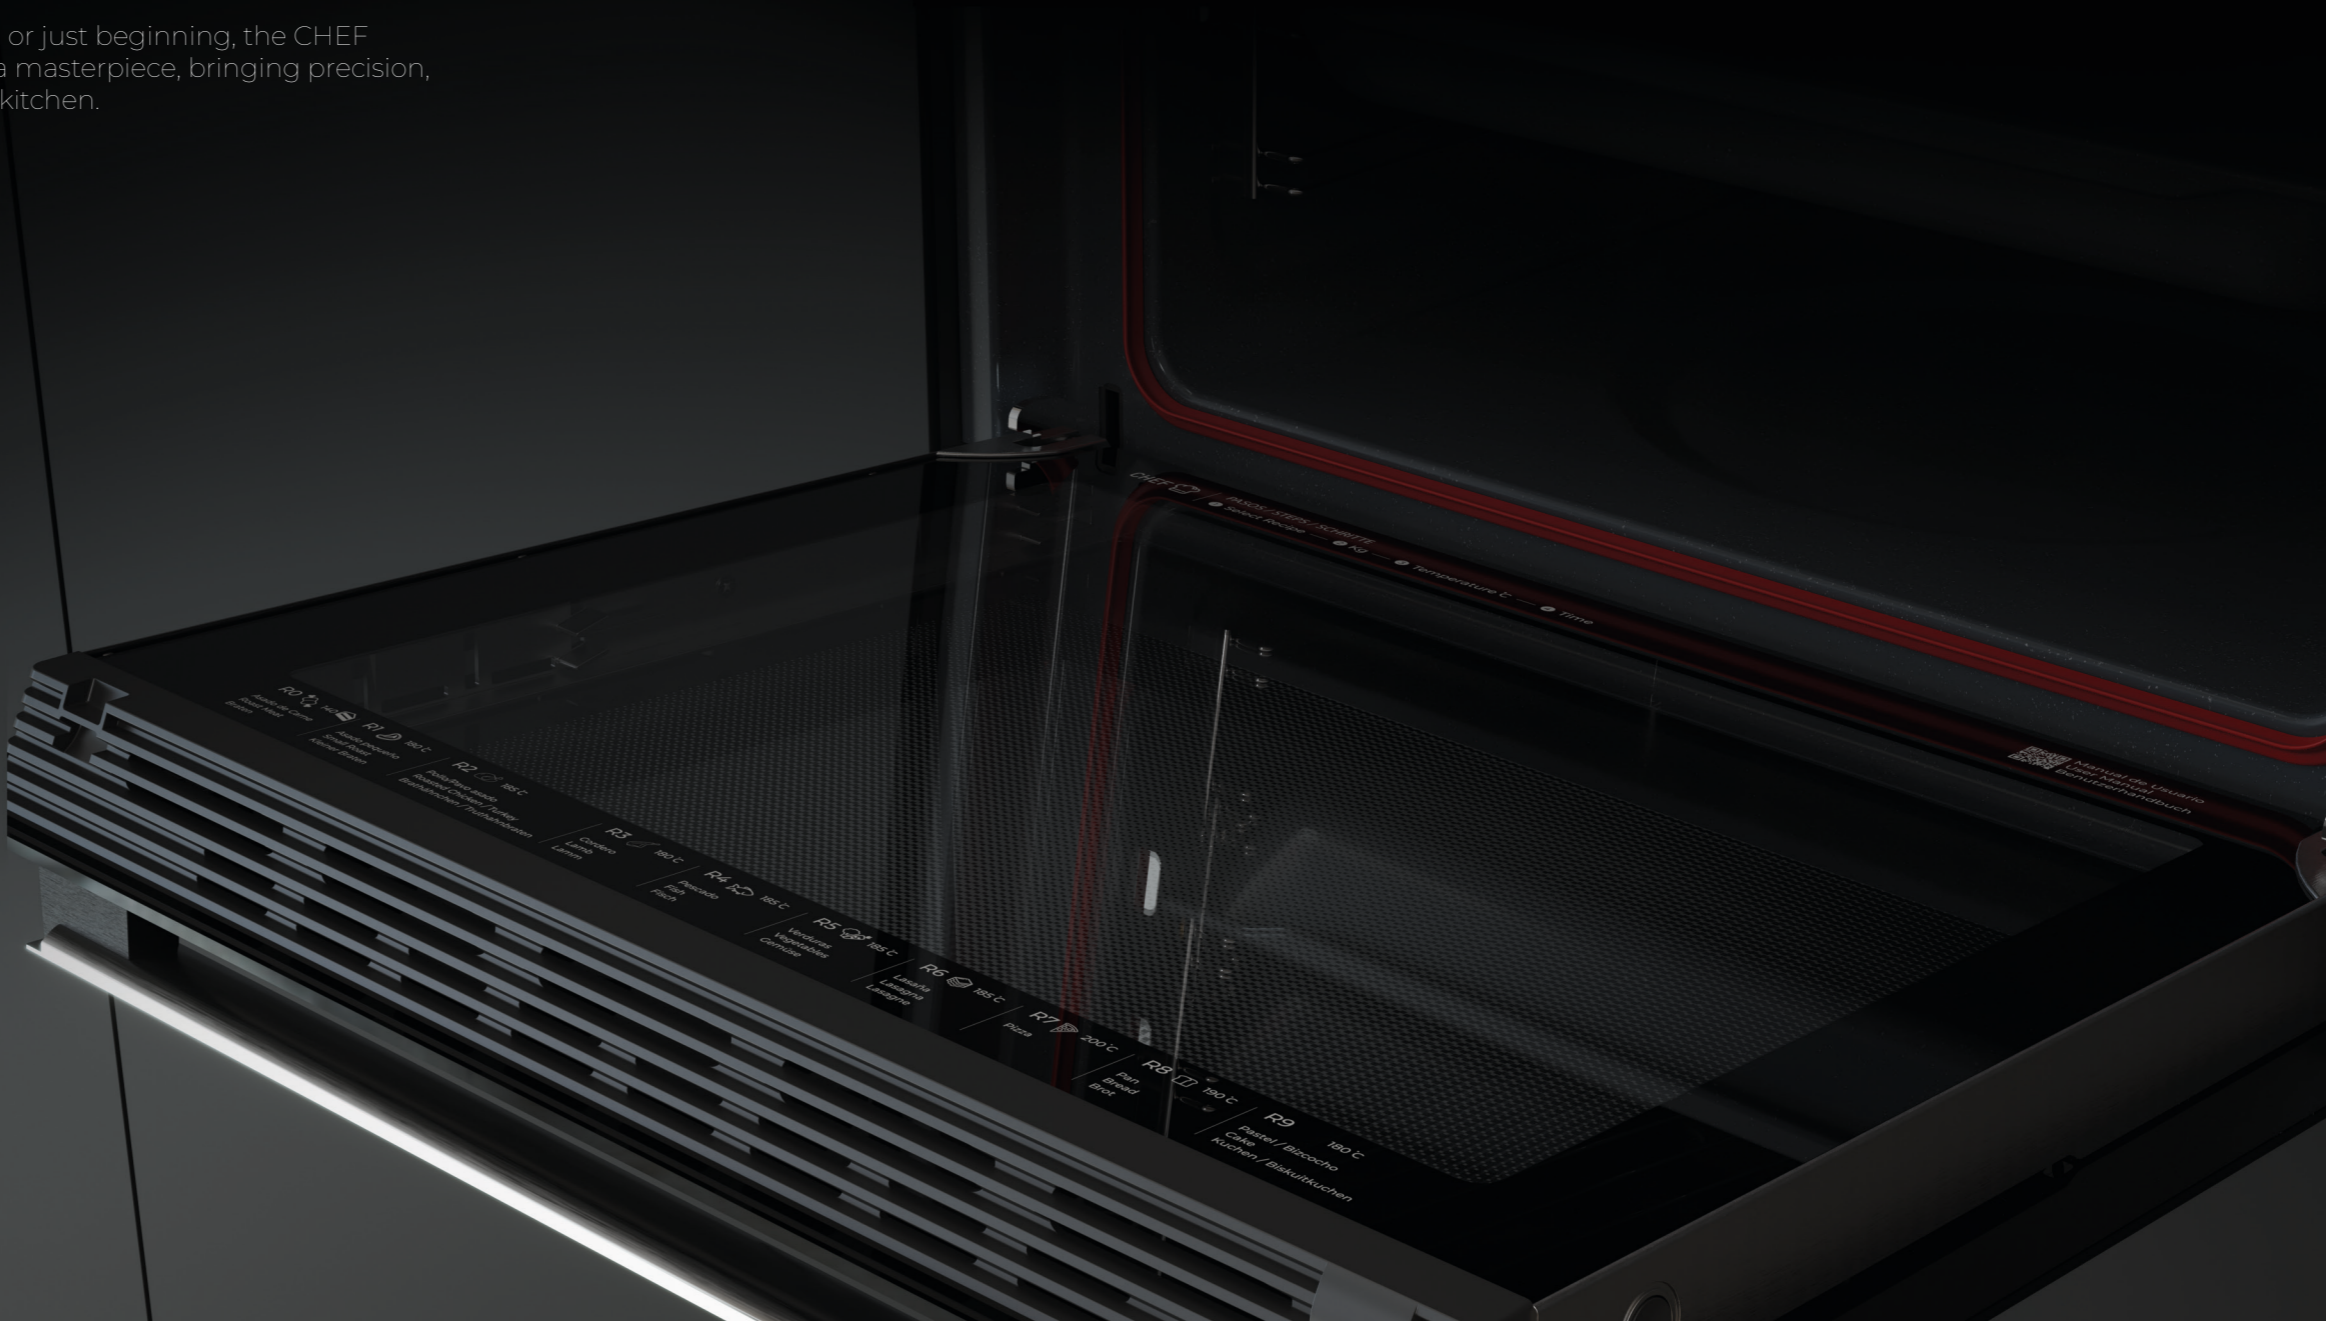

Whether experienced in the kitchen or just beginning, the CHEF function makes every meal feel like a masterpiece, bringing precision, convenience, and great taste to any kitchen.

UP TO 300°C OF COOKING

Unlock the power of precision with temperatures reaching up to 300°C in pyrolytic models.

Perfect for those who demand high heat, the oven ensures crispy, perfectly browned dishes every time. Whether baking pizza, roasting meats, or creating mouth-watering desserts, the 300°C capability delivers exceptional results with ease.

EASYSTEAM MODELS

A healthier touch with the EasySteam models. Tender, juicy meats, crispy golden pastries, and perfectly roasted vegetables. Say goodbye to dry, uninspired meals and hello to a world of flavor, aroma, and texture thanks to the combination of heat and steam.

AIRFRY FUNCTION

Get crunchy results in your oven with the AirFry models. Prepare frozen or precooked fried potatoes, chicken wings, or nuggets quickly and easily. Fresh vegetables will taste juicy and crispy at the same time. Add a few oil drops, access the Air Fry function on your oven panel and enjoy perfect results.

ULTIMATE TECHNOLOGIES

An exceptional oven should make every part of cooking effortless—even cleaning. With the power of automatic cleaning through Pyrolysis or HydroClean steam system, combined with the easy-to-clean new BrightClean enamel, keeping your oven in top condition is simpler than ever. Outside, the fingerproof stainless steel keeps your oven shining, no matter how busy your kitchen gets.

- BrightClean Enamel
- ThermoSeal System
- Fingerproof Stainless Steel
- FastClick System
- PyroClean & HydroClean

BRIGHTCLEAN ENAMEL

Excellence isn't an option—it's a promise. That's why we've reimagined the very heart of the oven, introducing the new **BrightClean**, an innovative cavity enamel that combines durability with effortless elegance. **The most resilient surface we have ever created.**

Effortless Cleanup

Its ultra-smooth surface resists grease and stains, making it easier and more efficient to clean, keeping your oven looking new for longer with less maintenance.

Superior durability

Built for longevity, it stands up to daily use without compromise and maintains its strength and functionality, even with frequent cooking.

Extreme heat resistance

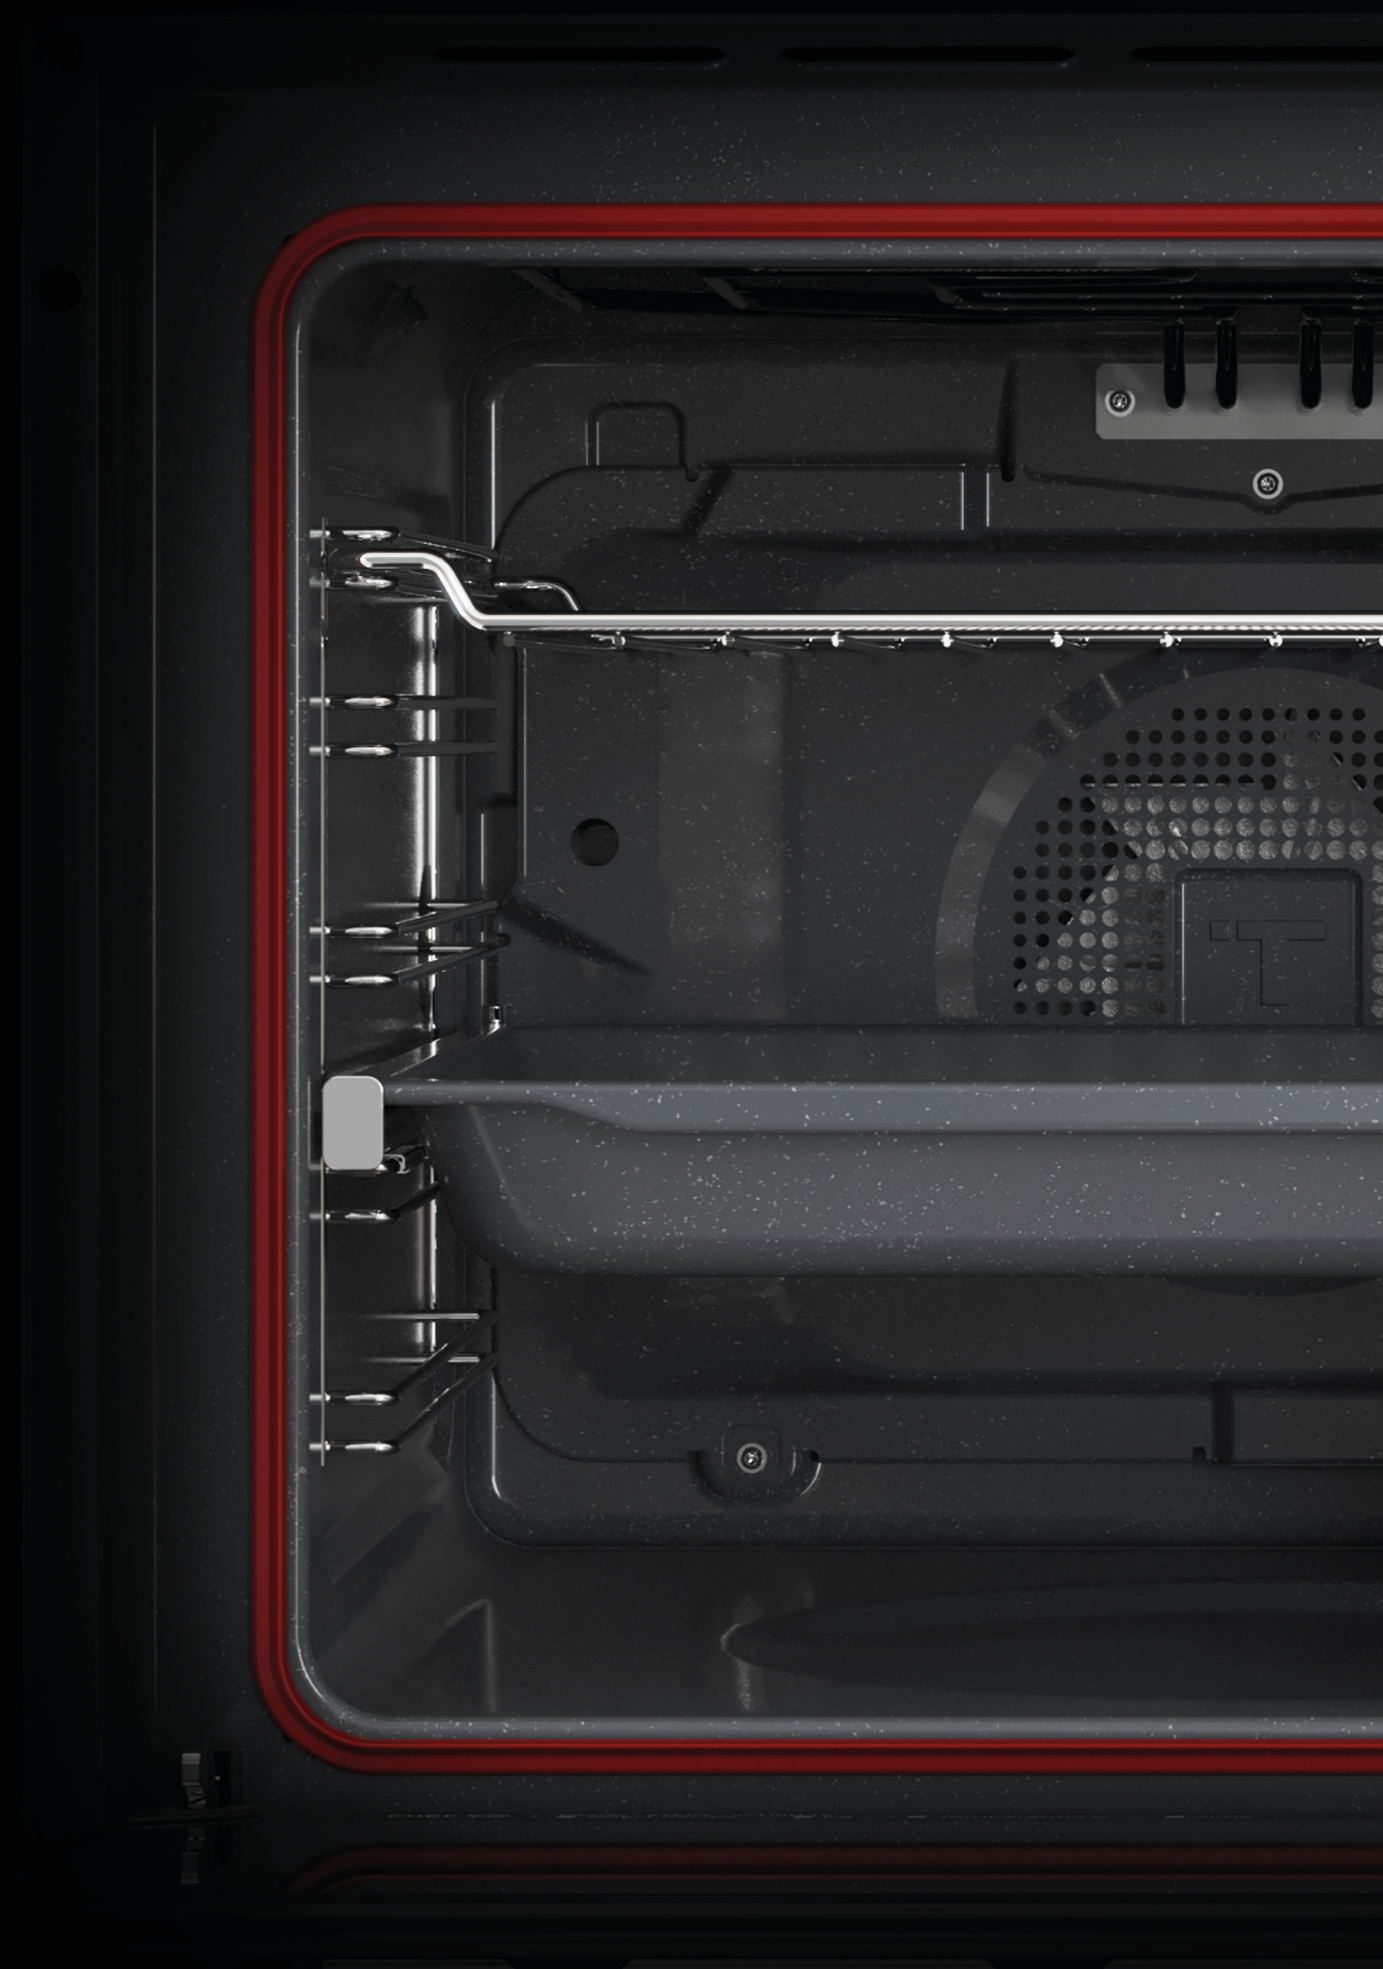

Withstands temperatures up to **470°C** without losing brilliance, ensuring exceptional results even in the harshest conditions.

THERMOSEAL SYSTEM

The new ThermoSeal System is a high-performance rubber gasket designed to ensure both protection and efficiency. By creating a perfect seal, it prevents heat from escaping and maintains a stable temperature inside the oven. This not only enhances cooking performance but also optimizes energy use.

Style and safety should go hand in hand. With its striking design, ThermoSeal adds a bold, modern touch to the oven, making it instantly recognizable. But it's more than just a visual statement—it serves as a clear warning of the heat within, ensuring safety while handling the oven. Form, function, safety, and efficiency—all in one.

FINGERPRINT PROOF STAINLESS STEEL

Every detail deserves to do more, endure longer, and impress at every glance. That's why we have unveiled the flat anti-fingerprint stainless steel panel. Crafted for effortless cleanliness, it resists marks and smudges, staying spotless with ease. It also makes maintenance easier, while its sleek and modern finish elevates the aesthetic of the oven.

FASTCLICK TRAY SUPPORT SYSTEM

Designed to enhance functionality, the new FastClick tray support system features a new tray support with an easy clip mount, allowing for quick and secure installation. This system improves height distribution, optimizing heat circulation for better cooking results.

This new tray support system also offers more flexible telescopic positions, and it adapts easily to different cookware sizes, providing greater versatility in the oven space. Its design facilitates effortless cleaning, as the tray supports can be removed and reinstalled smoothly.

By combining flexibility, improved performance, and easy maintenance, the FastClickSystem ensures a more efficient and convenient cooking experience.

PYROCLEAN

If you need a deep cleaning, you can choose between three different pyrolysis levels that will reduce the dirt to ashes so you can clean it with a cloth.

HYDROCLEAN

The HydroClean system softens the grease adhered to the walls of the oven using steam, so you can clean it quickly and without effort after every use.
