

DISCOVER TEGRANITE+

GREAT DESIGN, MAXIMUM STRENGTH

TEKA

DISCOVER THE TEGRANITE+ SERIES

Kitchen lovers seek to create a work area where innovation, practicality and functionality stand out in every corner.

Where every item has great design and is made of highly durable materials, offering total safety in use.

The Tegrinite+ sink series have been manufactured with the best materials to create a stylish, high-strength product in a wide range of colours and sizes.

DESIGN

IMPECCABLE LINES, **SUPERB DESIGN**

Every Tegrinite+ sink exudes modernity, meticulous lines and edges adorning every item, filling them with personality.

VIBRANT COLOURS

Its specific method in the colouring of granite particles provides greater resistance against fading, maintaining the colour intensity and offering durability against UV rays.

QUALITY AND VERSATILITY

MAXIMUM STRENGTH

Its formula, with 80% of the highest quality quartz combined with acrylic resins results, in a much more robust material, resistant to impacts, thermal shocks, high temperatures and scratches that could occur during use.

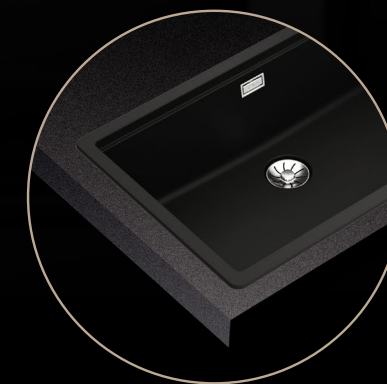

GREATER **CAPACITY**

200 mm deep sinks for easy cleaning of utensils.

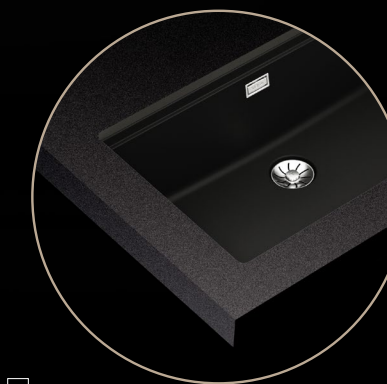

NOW **MORE** VERSATILE

Its versatility is also evident in its installation. Two different options to achieve a better integration in your kitchen: top mount for easy and accurate installation, while the undermount installation keeps your work area looking smart.

TOP

UNDERMOUNT

HYGIENE

EXTRAORDINARY HYGIENE

The ultra-thin, non-porous surface material prevents the growth of germs, acting as a barrier to bacteria and fungi that can be harmful to food.

Tegranite+ sinks have antimicrobial protection enriched with silver ions that prevent bacterial microorganisms.

EASY TO CLEAN

It features an odourless finish that resists stains and odours and without leaving a trace - cleaning couldn't be easier or faster!

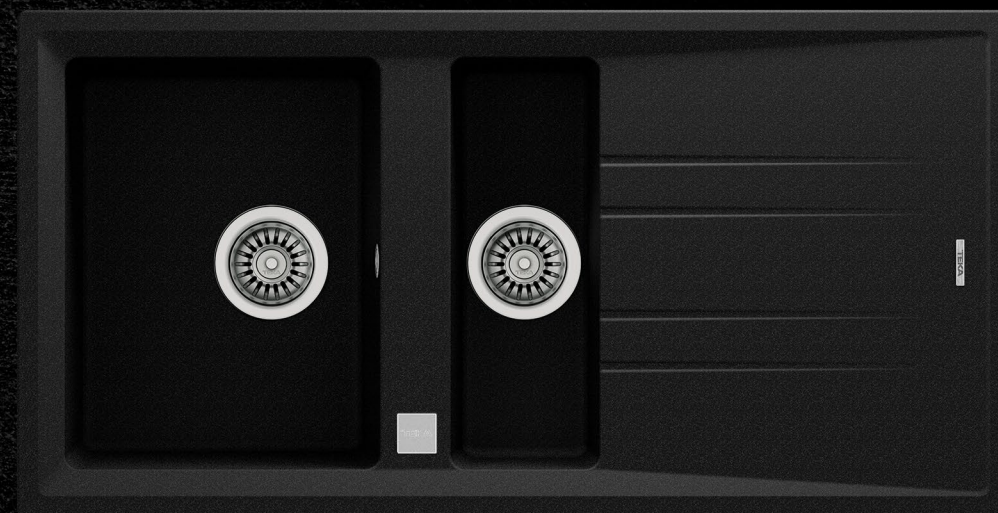

STONE

SERIES

The widest range of colours and dimensions you can find. Shape and size will no longer be a problem to choose the one that best fits your kitchen.

SQUARE & FORSQUARE

SERIES

These are characterized by their edges that form a tighter radius in the sink, facilitating the drainage of liquids and stopping them from remaining on the surface. There are two installation options, undermount in the Square models and top mount in the Forsquare sinks.

RADEA

SERIES

Its sophisticated straight lines lead to tighter radii that give the sink great depth, making it easier to handle and clean utensils regardless of their size.

Features the new HelixPro strainer and a different drainage system: **PerfectFlow**, which maintains the beauty of the sink by eliminating the rim between the strainer and the sink, preventing the proliferation of dirt and bacteria and providing a higher degree of hygiene for your kitchen.
