CT MON 02M/02F

Coin/token operated time counter with alert

- Electronic timer operated by coins or tokens.
- Adjustable via DINUY - Configure App.
- It includes a time-out warning, which consists of a relay output that activates a short time before the main timer finishes. Its purpose is to activate a visual or audible signals as a pre-warning.
- Additional features:
  - o Extra timing: allows you to assign a different timing when a number of coins/tokens exceeding the set amount is inserted.
  - o Allows you to assign a different number of coins/tokens and timing according to a set schedule and calendar.
- The display shows the number of coins/tokens to be inserted, when idle, or the remaining time.
- Option to connect an external switch to pause the timer.
- Metal security box in white (RAL 9003) with a key lock.
- Spring connectors are included for easy connection.
- Application examples: campsites, tennis or paddle tennis courts, churches, gas stations, hospitals, laundromats, etc.
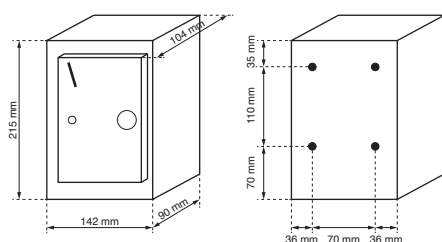

Technical characteristics

REFERENCE	CT MON 01M	CT MON 01F
Activation	Coins	Tokens
Display	Yes	
Supply voltage	230V~ 50Hz	
Power self-consuption	< 1W	
Maximum allowed current	16 A (Power factor=1)	
Adjustable time bounds	1 sec .. 5 hours	
Coin/token limit	1 .. 4	
Maximum accumulative time	18 hours	
Coin/token type	Only 1 type (1€ coin) Other coins by demand	Reference: AC CT- 005
Color	White RAL 9003	
Dimensions	215 x 142 x 104 mm	
Degree of protection	IP20 according to UNE20324	
Working temperature	-10ºC ~ +45ºC
