

SE TEC T3B/T3N/T3P

Emergency ceiling installation with Autotest

- Discreet and elegant emergency light with self-test, for flush mounting in suspended ceilings.

- Minimum mounting height of only 43.5 mm (above the suspended ceiling).

- Aesthetically designed to match our range of detectors for a cohesive installation.

- Applications: Bathrooms and toilets, kitchens, hallways, lobbies, offices, classrooms, and any space such as homes, offices, schools, shopping centers, hospitals, hotels, restaurants, etc.

- Very low power consumption with switched-mode power supply

- Available in white, black, and gray

- High-power LED

- Replacement battery SE TEC BAT.

- 1-hour autonomy

- 4.8V/750 mAh Ni-Cd battery

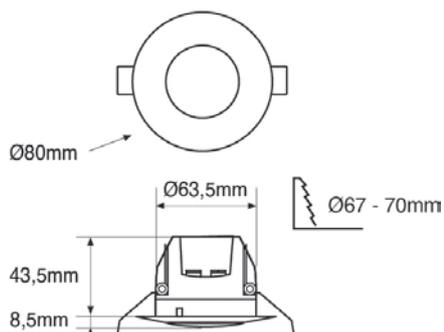

- IP20/IK04 protection rating

Technical specifications

REFERENCE	SE TEC T3B	SE TEC T3N	SE TEC T3P
Lamp Type	LED		
Supply voltage	230 V-		
Self consumption	< 1 W		
Frequency	50 Hz		
Colour	White	Black	Grey
Material	PC + ABS. Self-extinguishing		
Autonomy	1 H		
Type of operation	Non permanent		
Test mode	Autotest		
Batteries	Ni-Cd 4,8V/750mAh		
Installation	Recessed in ceiling		
Colour temperature	5700		
Luminous flux	170 lm		
Operating temperature (°C) (min)	-5°C		
Operating temperature (°C) (max)	35°C		
Impact resistance	IK07		
Protection degree	IP40		
Isolation class	Class II		
According to	UNE 60598-2-22		

Replacement battery SE TEC BAT
