

# AM K5X 001

## KNX-RF signal repeater

- KNX-RF S-Mode wireless signal repeater that extends the distance between sensors and actuators.
- Up to 3 units can be installed in the same system.
- Dimensions: 45 x 42 x 12 mm
- Power supply: 230V~ 50Hz
- No programming required

### Technical specifications

| REFERENCE             | AM K5X 001   |
|-----------------------|--|
| Supply voltage        | 230 V- 50 Hz   |
| Self consumption      | ~25 mA   |
| Radio-frequency       | Encoded emission at 868.3 MHz with PRA > 8 mW and a penetration of 100m (open field) |
| Communication method  | KNX RF 1.R   |
| Protection degree     | IP20   |
| Operating temperature | 0° C ... 45° C   |
| Dimensions            | 45 x 42 x 12 mm  |
