A nomad spirit collection

Una colección de espíritu nómada

The new collection of Tatawin lamps is a design by Adolfo Abejón for Faro Barcelona. It delicately combines the geometric purity of its design and the robustness of its metal structures with the gentle shapes of the blown glass shade. This collection transports us to the nostalgia and warmth of interior spaces with classic lamps with glass shades. Its lampshade, in landscape form, transmits serenity and is inspired by the sinuous curves of the characteristic houses of Tataouine, a city located in the southeast of Tunisia, hence the name of this collection. With the same nomadic spirit as the city that gives them their name, the shades are interchangeable, made of triplex blown glass and come in two shades: opal white and black. In addition, the floor and table versions incorporate a rotating arm that allows the light to be moved closer or further away depending on the needs of the moment.

La nueva colección de lámparas Tatawin es un diseño de Adolfo Abejón para Faro Barcelona. En ella se combinan con delicadeza la pureza geométrica de su diseño y la robustez de sus estructuras metálicas, con las amables formas de la pantalla de cristal soplado. Esta colección nos transporta a la nostalgia y la calidez de los espacios interiores con las clásicas lámparas de pantallas de cristal. Su pantalla, en forma apaisada, transmite serenidad y está inspirada en las sinuosas curvas de las características viviendas de Tataouine, ciudad situada al sureste de Túnez, de ahí el nombre de esta colección. Con el mismo espíritu nómada que la ciudad que les da nombre, las pantallas son intercambiables, están hechas de cristal soplado triplex y se presentan en dos tonos: blanco opal y negro. Además, las versiones de pie y sobremesa, incorporan un brazo giratorio que permite acercar o alejar la luz en función de la necesidad de cada momento.
