

	INSTRUCTION MANUAL TILE LEVELING SYSTEM	Page	6
		Revision	00
		Date	15/05/2025
This manual is intended to guide the user in the safe and efficient use of this product.			

1. JOB IDENTIFICATION AND TASKS

System composed of wedges, bases or clips, and pliers or tightening tools, used to ensure proper spacing and leveling of tiles during installation. It improves the final finish and reduces height differences between tiles.

2. RISK ASSESSMENT

2.1. Risk Identification

- Impacts or pinching when using pliers or tightening tools.
- Minor cuts when handling broken or deformed bases.
- Slips or trips caused by wedges or clips scattered on the work surface.

2.2 Risk Assessment

Hazard	Consequence	Probability	Severity	Risk
Use of pliers	Impacts or pinching	Medium	Medium	Medium
Cuts from debris	Minor injuries	Medium	Medium	Medium
Falls	Bruising	Medium	Medium	Medium
Dust inhalation	Respiratory discomfort	Medium	Medium	Medium

2.3. Preventive Measures

- Always use specific pliers or tightening tools to apply the wedges.
- Wear protective gloves to prevent cuts or pinching.
- Immediately remove any system debris to avoid trips.
- Check that all components are in good condition before use.

2.4. Corrective Measures in Case of Accident

- Cuts: Clean, disinfect and cover with a dressing. Seek medical advice if the wound is deep.
- Pinching or impacts: Apply cold locally and rest the affected area.
- Dust inhalation: Move away from the area, breathe fresh air and seek medical advice if discomfort persists.

2.5. Evaluation of the Effectiveness of the Measures

- Monitor the proper use of the system, check the condition of reusable components, and reinforce workplace organization.

3. INSTRUCTIONS FOR USE

3.1. Considerations Before Use

- Check that bases, wedges and tools are complete and in good condition.
- Clean the work area before starting installation.
- Have all necessary tools ready.
- Wear the appropriate PPE (gloves).

3.2. Considerations During Use

- Place the bases between the tiles before the adhesive sets.
- Insert the wedge/clip into the base and tighten it with the pliers until the tiles are level.
- Once the adhesive has dried, strike the bases laterally with a rubber mallet to remove them without damaging the tiles, following the joint direction.

3.3. Warnings

- Do not apply pressure directly on the wedges with your hands.
- Do not reuse deformed bases or worn wedges/clips.
- Do not apply excessive pressure to avoid breaking the wedges before the adhesive has set, ensuring proper installation.
- Do not leave components scattered in the work area.
- Do not allow use by minors or untrained persons.
- Use only under adequate lighting conditions.
- Do not use if you are tired, under the influence of alcohol, or have taken medication or substances incompatible with the task.

4. MAINTENANCE AND STORAGE

4.1. Cleaning

Clean reusable wedges/clips and tools after each use. Remove any adhesive or grout residues.

4.2. Inspection

Check that the pliers operate correctly and that the wedges are not deformed. Replace any defective parts.

4.3. Storage

Store system components in a closed, dry container, away from heat sources and moisture.

4.4. Recycling and Environment
