

	INSTRUCTION MANUAL PLIERS	Page	6
		Revision	00
		Date	15/05/2025
This manual aims to guide the user in the safe and efficient use of this product			

1. IDENTIFICATION OF THE WORK AND TASKS

Hand tool used to grip, bend and cut wires, nails, or to extract elements in construction, masonry, carpentry or assembly work.

2. RISK ASSESSMENT

2.1. Risk Identification

- Risk of cuts or crushing of fingers when the tool is accidentally closed.
- Projection of metal fragments when cutting wires or nails.
- Muscle fatigue due to prolonged use or incorrect posture.
- Injuries caused by a damaged handle or poor grip.
- Electrical hazard if used on live wires without proper insulation.

2.2 Risk Assessment

Hazard	Consequence	Probability	Severity	Risk
Finger cuts	Injuries or amputation	Medium	Medium	High
Projection of fragments	Eye injuries	Medium	Medium	High
Muscle fatigue	Pain or injury	Medium	Medium	Medium
Defective handle	Loss of control	Medium	High	High
Use on electrical cables	Electrocution	Low	High	High

2.3. Preventive Measures

- Use protective gloves with good grip.
- Use safety glasses when cutting hard or metal materials.
- Check the condition of the cutting edges, handles and joints before use.
- Avoid prolonged use without breaks. Alternate hands if possible.
- Do not use the tool on live electrical components.

2.4. Corrective Measures in Case of Accident

- Cuts: Clean, disinfect and cover the wound. Seek emergency care if severe.
- Eye injuries: Rinse the eye with clean water and seek medical attention.
- Muscle fatigue: Rest, apply cold/heat and consult a doctor if pain persists.

2.5. Evaluation of the Effectiveness of the Measures

	INSTRUCTION MANUAL PLIERS	Page	6

This manual aims to guide the user in the safe and efficient use of this product			

- Periodically assess the condition of the tools and the implementation of safety measures. Provide training on the correct use of pliers.

3. INSTRUCTIONS FOR USE

3.1. Aspects to consider before use

- Check that the tool is clean and in good condition (cutting edge, handle, rivet, etc.).
- Use protective gloves and safety glasses.
- Ensure you are working on a stable surface with adequate lighting.

3.2. Aspects to consider during use

- Firmly grip the handles with both hands.
- Correctly position the object to be cut or held between the jaws.
- Perform the action with gradual and controlled pressure.
- Do not force the tool beyond its capacity.

3.3. Warnings

- Do not use the tool if it is damaged.
- Do not allow children or untrained persons to use it.
- Do not cut high-resistance or hardened wires if the tool is not designed for this purpose.
- Do not use the tool as a lever.
- Use only under adequate lighting conditions.
- Do not use if you feel fatigued, under the influence of alcohol, or have taken medication or substances incompatible with the task.

4. MAINTENANCE AND STORAGE

4.1. Cleaning

Clean the tool after each use with a dry or slightly damp cloth. Remove any metal residues or adhered materials.

4.2. Inspection

This manual aims to guide the user in the safe and efficient use of this product			

Check the condition of the jaws/cutting edges and the joints. Apply lubricant to the pivot if necessary. Replace the tool if there are cracks, looseness or excessive wear.

4.3. Storage

Store in a dry and safe place, away from moisture. Keep out of reach of children.

4.4. Recycling and Environment

When the tool needs to be disposed of, take it to a recycling center in accordance with local regulations
