

Description for projects

The 1043/135 out-of-door optical repeater is intended to indicate the alarm status of an ART 1/G+ hospital secondary installed in a system programmed with hospital functions.

The 1043/135 has two red LEDs that light up when the ART 1/G+ hands-free audio unit to which it is connected indicates a call or an alarm.

The 1043/135 repeater can be used in any signalling, alarm or fire prevention system. The 1043/135 also has a buzzer that can be configured to sound with the jumper open or with the jumper connected only the optical warning works.

Mechanical dimensions:

Specifications

• Lighting	2 high-brightness red LEDs
• Sound	Configurable with jumper
• Material	ABS plastic
• Color	White
• Installation	Surface
• Power supply	12 - 24 VDC
• Consumption	11mA
• Connection	via terminals
• Operating temp	-10°C ÷ +55°C
• Relative humidity	93% max.
• Weight	30 g
• Protection degree	Ip40
• Dimensions in mm	66.5(W) x 60.6(H) x 23.6(D)
