

Description for projects

The VP/2CB bicolour door light is used to indicate the alarm or presence status of an ART 1/G+/SE hospital secondary installed in a system programmed with hospital functions.

The VP/2CB device has three red LEDs and three green LEDs that light up when the ART 1/G+/SE hands-free audio unit to which it is connected indicates a call, an alarm or a presence. The VP/2CB repeater can be used in any signalling system, alarm warning system or indicator system. The VP/2CB device also has a buzzer that can be connected to sound when necessary.

Specifications

- | | |
|------------------------|--------------------------------------|
| • Lighting | 3 high-brightness red and green LEDs |
| • Sound | Connectable |
| • Material | ABS plastic |
| • Color | White |
| • Installation | Flush-mounted |
| • Power supply | 12 VDC |
| • Max Consumption | 40mA |
| • Connection | via terminals |
| • Operating temp | -20°C ÷ +70°C |
| • Weight | 50 g |
| • Degree of protection | IP32, IK02 (assembled). |
| • Dimensions in mm | 89(W) x 93(H) x 40(D) |
