RUBINETTERIE BAGNO & CUCINA

# Avanziamo con te!

*We move forward with you!*

**Rubinetteria Clever** nasce nel 1998 da **Standard Hidráulica**, azienda fondata a Barcellona nel 1975 e riconosciuta come uno dei principali produttori di rubinetteria e accessori per cucina e bagno in Spagna. Con una filosofia basata sulla qualità, sul servizio, sulla cura dell'attenzione al cliente, sulla costante ricerca tecnologica e sul rispetto dell'ambiente.

Standard Hidráulica fa parte di STH Group, gruppo industriale internazionale con sede a Barcellona e filiali in Francia e Grecia, che ci permette di rafforzare la nostra capacità commerciale, logistica e di servizio, sempre con una chiara vocazione internazionale.

Clever è oggi un marchio in costante evoluzione, pronto ad accompagnare progetti professionali con soluzioni affidabili, efficienti e sostenibili.

*Clever taps was created in 1998 by Standard Hidráulica, a company founded in Barcelona in 1975 and recognized as one of the leading manufacturers of taps and accessories for kitchens and bathrooms in Spain. It is built on a philosophy based on quality, service, attentive customer care, continuous technological research, and respect for the environment.*

*Standard Hidráulica is part of STH Group, an international industrial group headquartered in Barcelona with subsidiaries in France and Greece, which strengthens our commercial, logistical, and service capabilities, always with a clear international business focus.*

*Today, Clever is a constantly evolving brand, ready to support professional projects with reliable, efficient, and sustainable solutions.*

# Soluzioni integrate dal 1975

*Integral solutions since 1975*

Le soluzioni di STH si integrano in modo efficiente all'interno degli edifici e delle reti di distribuzione, e sono facilmente personalizzabili e installabili, contribuendo in modo fondamentale al funzionamento ottimale degli impianti. La filosofia dell'azienda si fonda sulla **qualità, sul servizio, sugli investimenti, sulla competitività**, e sulla innovazione sin dalla sua fondazione nel 1975.

*STH solutions are efficiently integrated into the heart of buildings and distribution networks having a fundamental contribution into the optimal operation of the facilities. The company's philosophy is based on quality, service, investment, competitiveness and innovation.*

# I nostri pilastri fondamentali

L'obiettivo di STH è quello di essere riconosciuta come azienda leader in ciascuno dei seguenti mercati strategici:

*Our pilars | STH's goal is to be recognized as the leading company in the following strategic markets:*

## Rubinetteria

STH sviluppa una gamma esclusiva e completa di prodotti di rubinetteria per bagno e cucina. Qualità, innovazione, tecnologia, design ed efficienza ambientale sono le caratteristiche della rubinetteria targata Clever.

*Clever, exclusive range of taps, mixers and showers for kitchens and bathrooms.*

## Valvole, sistemi e connessioni

Soluzioni per impianti domestici di acqua e gas e sistemi completi di tubazioni, raccordi e valvole.

*Connection solutions for thermal and sanitary networks in buildings.*

# Le persone, la risorsa più grande

*Winning with people*

# I nostri valori:

*Our values:*

**Essere un imprenditore**

*Be an entrepreneur*

Facciamo diventare realtà i sogni

*We make dreams come true*

**Assumere l'iniziativa**

*Take ownership*

Manteniamo le promesse

*We keep our promises*

**Raggiungere l'enccellenza**

*Go for excellence*

Superiamo i limiti sfidando lo status quo

*We reach limits by challenging the status quo*

**Condividere e imparare**

*Share and learn*

Impariamo e progrediamo grazie al lavoro di squadra

*We learn and move forward through teamwork.*

**Agire con integrità**

*Act with integrity*

Siamo dei professionisti, ci comportiamo in modo esemplare

*We are professionals, we act in an exemplary manner*

# Il nostro piano per le pari opportunità

*Our equality plan*

STH è anche un'azienda certificata ISO 9001 e ISO 14001 e, con l'applicazione della Legge sulla parità, promuove azioni all'interno dell'azienda che favoriscono le pari opportunità per tutto il personale STH.

*STH is also an ISO 9001 and ISO 14001 certified company, and with the application of the Equality Law, promoting actions within the company that favour equal opportunities for all STH staff.*

# STH, un punto di riferimento nel settore sanitario e fieristico

*STH, your partner for the bathroom sector and showroom*

# Gruppo Internazionale

*International Group*

Dalla progettazione alla produzione, Standard Hidráulica controlla tutte le fasi della produzione e garantisce la disponibilità dei prodotti il più rapidamente possibile grazie alle sue piattaforme logistiche.

*From design to manufacture, Standard Hidráulica controls all stages of production and guarantees the availability of its products as quickly as possible thanks to its logistics platforms.*

# Qui in Standard Hidráulica ribadiamo il nostro impegno nella lotta contro il cambiamento climatico.

*At Standard Hidráulica we reaffirm our commitment to the fight against climate change.*

# Una cultura della qualità, dell'innovazione, della tecnologia, del design e dell'impegno per l'ambiente

*Culture of quality, innovation, technology, design and commitment with the environment*

Nei nostri centri tecnici di ingegneria, grazie a strumenti all'avanguardia, sviluppiamo soluzioni innovative e prodotti che soddisfano i più elevati standard di qualità e di certificazione. Per questo **STH possiede la certificazione ISO9001, ISO14001 e il sigillo dell'impronta di carbonio, CARBON FOOTPRINT**, che dimostra l'impegno nei confronti dell'ambiente, attraverso la riduzione al minimo dell'impatto ambientale e favorendo una migliore gestione delle risorse.

*At our technical engineering centers, we develop innovative solutions and products that fits with the most stringent quality and certifications. STH has the ISO9001, ISO 14001 and the CARBON FOOTPRINT calculation stamp which certifies the commitment with the environment, minimizing environmental impacts and supporting the best resources management.*

# Prodotti e soluzioni efficienti per migliorare la sostenibilità e il benessere nelle abitazioni

*Efficient products and solutions to improve sustainability and well-being in homes*

Le soluzioni di STH per impianti termo sanitari operano nel cuore degli edifici (dalle reti pubbliche fino all'interno della residenza). A volte non si vedono, ma il contributo che apportano e sempre sostenibile e fondamentale per il funzionamento di un edificio.
Con la sua vision ambientale Standard Hidráulica dichiara l'intenzione del Gruppo STH di garantire efficienza energetica e sostenibilità.

STH lavora da molti anni a fianco dei diversi attori del settore delle costruzioni e delle aziende del settore idrico e del gas, accompagna i clienti e i partner per aiutarli a realizzare i loro progetti e garantisce la creazione di valore reciproco.

*STH's solutions for thermal and sanitary installations operate in the buildings heart (from public networks to inside the residences). Sometimes they are invisible, but always make a sustainable and fundamental contribution to the building functioning. Standard Hidraulica's environmental vision declares the intention of STH Group to guarantee energy efficiency and sustainability.*

*STH has been working together with different partners within the building sector, water and gas companies.. for many years. Accompanying customers and partners to help them to reach their targets to fulfill the projects and guarantee the mutual value creation.*

# RISPARMIA ACQUA ED ENERGIA

*WATER AND ENERGY SAVINGS*

Secondo l'Istituto per la Diversificazione e il Risparmio Energetico (IDAE), il 17% del consumo energetico delle famiglie corrisponde all'acqua sanitaria. Il consumo ottimale corrisponde a una quantità media di 100 litri per persona. L'aspetto più energivoro nelle strutture ricettive turistiche viene riscontrato nella produzione di acqua calda sanitaria, che rappresenta il 25% della bolletta energetica. Sia che si tratti di rispettare l'ambiente, di insegnare ai nostri figli a prendersi cura del pianeta o di risparmiare sulla bolletta alla fine del mese, il punto è che esistono molti sistemi per risparmiare acqua e/o energia:

*According to IDEA, the 17% of the energy consumption corresponds to sanitary water. Optimal consumption is an average amount of 100 litres per person. The aspect in which tourist accommodation consumes the most is in the production of sanitary hot water that accounts for 25% of the energy bill. Either for taking care of the environment, teaching our children to take care of the planet or by saving money at the end of the month, the truth is that there are many systems to save water and / or energy:*

Aeratore con limitatore di portata di flusso
*Aerator with flow restriction*

È gestito dal Building Research Establishment (BRE). Il centro, fondato nel 1921, è stato il primo al mondo a focalizzarsi sulla ricerca nel settore edilizio. Attualmente svolge attività di ricerca, consulenza e sperimentazione per il settore delle costruzioni.

*The Building Research Establishment (BRE) is the company that manages it. Founded in 1921, it was the first research-oriented organization in the building sector in the world. It currently conducts research, advice and testing for the construction sectors.*

Lo Spain Green Building Council è la prima associazione nazionale senza scopo di lucro di aziende leader nel settore edile che lavorano insieme per promuovere città ed immobili responsabili, redditizi e sani da un punto di vista ambientale.

*Spain Green Building Council is the first national non-profit association of leading companies of the construction industry working together to promote environmentally responsible, cost-effective and healthy cities and buildings.*

Il Green Building Council GBCe è un'associazione senza scopo di lucro che riunisce i rappresentanti di tutti gli operatori del settore edile al fine di contribuire alla trasformazione del mercato verso un'edilizia più sostenibile, compatibile con gli Obiettivi di Sviluppo Sostenibile delle Nazioni Unite.

*GBCe is a non-profit association that brings together representatives of all actors in the building sector in order to contribute to the transformation of the market towards a sustainable building concept,* consistent with the United Nations Sustainable Development Goals.

A SOSTEGNO DELL'EFFICIENZA IDRICA

*SUPPORTING WATER EFFICIENCY*

# ¿Che cos'è la certificazione **UWLA**?

*What is UWLA certification?*

La Unified Water Label Association (UWLA) (www.uwla.eu) mira a stabilire una classificazione energetica standardizzata a livello europeo per tutti i prodotti di rubinetteria che utilizzano l'acqua, in modo che l'utente possa comprendere visivamente il livello di efficienza energetica.

*The UWLA label, Unified Water Label Association (www.uwla.eu), aims to establish the standardised, Europe-wide energy standardised across Europe for all water-using faucet products. So that the user can visually understand their level of energy efficiency.*

## Risparmio di acqua e di energia

I rubinetti certificati UWLA, come quelli sviluppati da Rubinetteria Clever, sono appositamente progettati per limitare il più possibile il flusso d'acqua, con valori che possono raggiungere il 50%, ma sempre senza compromettere l'esperienza dell'utente; in altre parole, la comodità durante l'utilizzo dell'acqua. In questo modo non solo si risparmia acqua, ma si riduce anche l'energia necessaria per riscaldarla, il che si traduce in un minor consumo energetico.

### Water and energy savings

*UWLA-certified taps, such as those developed at Clever Taps, are designed to limit water flow as much as possible, with values up to 50%, but always without compromising the user experience; or in other words, the comfort in obtaining water. Is not only water, but also reduces the energy required to heat it, which translates into lower energy consumption.*

## Sostenibilità ambientale

Riducendo il consumo di acqua e di energia contribuiamo direttamente alla conservazione delle risorse naturali del pianeta e alla mitigazione del cambiamento climatico.

### Environmental sustainability

*By reducing water and energy consumption, we are contributing directly to the preservation of the planet's natural resources and the mitigation of the climate change.*

## Risparmio economico a breve termine

Scegliendo un prodotto con l'etichetta UWLA l'utente ha la garanzia di aver scelto un prodotto che lo aiuterà a consumare acqua ed energia in modo più intelligente ed efficiente. Questo può indubbiamente fare la differenza nei consumi, dato che il 70% dell'acqua consumata in una famiglia è utilizzata per lavarsi e per l'igiene personale, mentre il 25% dell'energia consumata è utilizzata per riscaldare l'acqua.

### Short-term financial savings

*By choosing a product with the UWLA label, the user is guaranteed to have chosen a product that will help him to save water and energy in a smarter and more efficient way.*

*This can make a difference in consumption; because the 70% of the water consumed in a house is dedicated to washing and personal hygiene, while 25% of the energy consumed is used to heat the water.*

# Clever Taps ottiene la certificazione EPD® (Dichiarazione Ambientale di Prodotto)

La certificazione **EPD®** è stata verificata rigorosamente da TECNALIA R&I CERTIFICATION S.L. come ente certificatore indipendente, **per essere registrata e pubblicata nel Sistema Internazionale** EPD®.

*The EPD certification has been rigorously verified by TECNALIA R&I CERTIFICATION S.L. as an independent certifying company, to be registered and published in the International EPD System.*

## **Trasparenza** nel ciclo di vita dei nostri prodotti e **impegno** per l'ambiente

È un piacere informarvi che, come risultato della nostra politica di impegno per l'ambiente, **Clever Taps** ha ottenuto la prestigiosa certificazione **EPD®** (Environmental Product Declaration) praticamente in tutti i suoi prodotti, coprendo un'ampia gamma di categorie nelle famiglie di rubinetti a incasso (lavabo, bidet e lavello), rubinetti a parete e rubinetti termostatici, compresi i set doccia tra tanti altri prodotti.

La certificazione EPD attesta **l'impegno del produttore a misurare e ridurre l'impatto ambientale dei propri prodotti e servizi** ed a rendicontare tali impatti in modo responsabile e trasparente.

Le prestazioni ambientali del prodotto sono descritte attraverso la valutazione del ciclo di vita del prodotto (LCA).
Dall'estrazione delle **materie prime**, **al processo di produzione**, alla **distribuzione** in tutte le sue fasi, **all'utilizzo** del prodotto e al suo riciclo a **fine vita**.

Inoltre, questi dati forniscono a un ampio pubblico tecnico, tra cui **architetti, ingegneri tecnici, costruttori e progettisti**, importanti informazioni sulla sostenibilità dei loro progetti di costruzione.

Ciò è particolarmente importante per i progetti di costruzione soggetti a schemi di certificazione internazionali come **BREEAM®, LEED® o VERDE®.**

## *Transparency in the life cycle of our products and commitment to the environment*

*It is a pleasure to inform you that as a result of our policy of commitment to the environment, Clever Taps has obtained the prestigious EPD (Environmental Product Declaration) certification in practically all its products, covering a wide range of categories in the families of Deck mounted Taps (Washbasin, Bidet and Sink), Wall Taps and Thermostatic Taps, including Shower Sets among many more products.*

*The EPD certification accredits the manufacturer's commitment to measuring and reducing the environmental impact of its products and services and reports on these impacts in a responsible and transparent manner.*

The environmental performance of the product is described by conducting a product life cycle assessment (LCA)
From the extraction of raw materials, the manufacturing process, distribution in all its phases, the use of the product and recycling as the end of its life.

Also, this data provides a broad technical audience including architects, technical engineers, builders and designers, with important information regardinghe sustainability of their comprehensive construction projects.
This is especially important for construction projects subject to international certification schemes such as **BREEAM®, LEED® or VERDE®**.

## FINITURA CROMO 3

Chrome3 è una finitura superficiale ideale per i miscelatori grazie alla sua stabilità, sicurezza e basso impatto ambientale.

**1**

E' altamente resistente alla corrosione e all'usura, assicura una maggiore durata ed un'impeccabile copertura che mantiene la brillantezza più a lungo.

**2**

Ha una composizione sicura per l'utilizzo domestico, poichè non presenta rischi per la salute.

**3**

Il suo processo di realizzazione è più rispettoso dell'ambiente, contribuendo ad una produzione sostenibile.

**Scegliere i miscelatori in finitura Chrome3 significa optare per la qualità, la sicurezza e la responsabilità ambientale.**

## CHROME 3 FINISH

Chrome 3 is an ideal surface finish for faucets due to its stability, safety, and low environmental impact.
This element is highly resistant to corrosion and wear, ensuring greater durability and a flawless finish that maintains its shine for longer.
Additionally, it is a safe compound for domestic use, as it poses no health risks. Its manufacturing process is more environmentally friendly, contributing to sustainable production.
Choosing faucets with Chrome 3 means opting for quality, safety, and environmental responsibility.

## Certificazioni · *Certificates*

Unified Water Label 5 l/min

iClever è il rivoluzionario sistema di installazione in un unico pezzo (cassa da incasso) che ti da l'opportunità di ottenere tutte le funzioni della doccia o della vasca da bagno con doccia. La scelta è tua. Le funzioni che ti interessano di più per il tuo bagno, la cassa iClever e infine puoi decidere quale modello di rubinetto ti piace di più scegliendolo nella nostra collezione.
Tre semplici passi per ottenere tutti i vantaggi che vuoi!

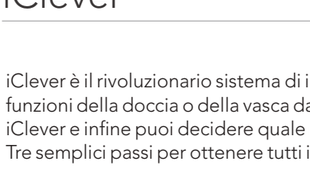

*iClever is the revolutionary 1 piece installation system (concealed box) that allows you to obtain all shower or bath shower functions you want. You choose the features you want for your bathroom, then the box and finally our iclever , afterwards you are ready to choose the faucet you like. In three simple steps, all the advantages!*

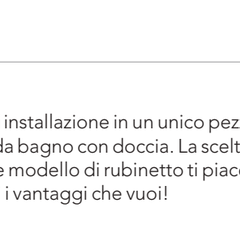

## iclever vantaggi *iclever advantages*

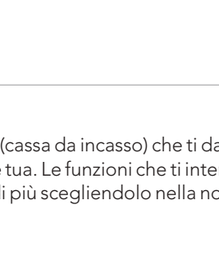

- ✓ Facile e veloce da montare e smontare.
  *Easy and quick to assemble and disassemble.*
- ✓ Previene i danni nella superficie cromata della rubinetteria.
  *Avoid any damage on the chrome surface.*
- ✓ Sistema flessibile: con una sola base si possono ottenere più configurazioni.
  *Flexible system: with only a base, we obtain multiple configurations.*
- ✓ Elevata sicurezza e durata
  *High level of reliability and durability.*
- ✓ Cambia la tua rubinetteria senza alcun intervento di edilizia..
  *Renew your faucet without works.*
- ✓ L'installazione può essere testata prima del montaggio completo..
  *The installation can be tested before it's completed.*

TechAIR
-30%
Water reduce

Le doccette per la Doccetta Clever utilizzano la tecnologia AIR Advanced.
Iniettando aria prima dell'uscita dell'acqua, è possibile dare volume alle gocce e ottenere una sensazione di maggiore morbidezza e comfort sotto la Doccetta.
*Clever handsets use the advanced technology AIR Advanced. Mixing air with the incoming water reduces the water consumption at least 30%.*

## Per la distribuzione dell'acqua e la chiusura dei sistemi sanitari domestici.

*For water distribution and the shut off of domestic water systems*

Il sistema ad una e due vie Kansas è compatibile con ogni tipo di tubazione (rame, multistrato, PEX o PB) grazie alla sua comprovata capacità di collegarsi con differenti tipi di raccordi a compressione.

*The iKansas 1-way and 2-way system is compatible with every type of pipes (copper, multilayer, PEX or PB) thanks to its tested capacity to connect with different types of compression fittings .*

ANTI CALCÁREO ANTI SCALING

PATENTED PRODUCT

- Compatto *Compact*
- Facile da installare *Easy to install*
- Sicuro *Safe*
- Alta funzionalità *High performance*

### iKansas caratteristiche
*iKansas features*

- Cartuccia con meccanismo in ceramica con chiusura a 90°
  *Ceramic cartridges with a 90° turn*
- La iKansas Box è poco profonda (60 mm). È un sistema progettato per essere utilizzato su tutti i tipi di pareti o strutture in gesso.
  *iKansas Box is not too deep (60 mm). It"s been designed to be used in every type of wall or any plaster.*
- È facile e veloce da installare.
  *Its installation is fast and easy*
- PN 10 e Temp.massima 90°C.
  *PN 10 and max. temperature 90°C.*
- Il coperchio iKansas è stato progettato in tre colori: bianco, argento e nero.
  *The lid is available in three colors: white, silver and black*

### Perché l'Ikansas?
*Why iKansas?*

iKansas può essere installato in qualsiasi ambiente senza mettere a rischio l'estetica. Permette di sostituire le valvole installate senza dover rompere la parete grazie al sistema di ingresso frontale.

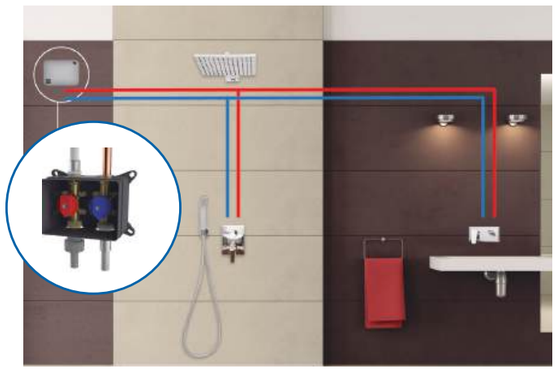

*iKansas is easy to maintain. It allows us to replace the installed shut-off valves without having to break the wall thanks to its front entry system.*

## FINITURA CROMO 3

Chrome3 è una finitura superficiale ideale per i miscelatori grazie alla sua stabilità, sicurezza e basso impatto ambientale

**1**
E' altamente resistente alla corrosione e all'usura, assicura una maggiore durata ed un'impeccabile copertura che mantiene la brillantezza più a lungo.

**2**
Ha una composizione sicura per l'utilizzo domestico, poichè non presenta rischi per la salute.

**3**
Il suo processo di realizzazione è più rispettoso dell'ambiente, contribuendo ad una produzione sostenibile.

**Scegliere i miscelatori in finitura Chrome3 significa optare per la qualità, la sicurezza e la responsabilità ambientale**

## CHROME 3 FINISH

Chrome 3 is an ideal surface finish for faucets due to its stability, safety, and low environmental impact.
This element is highly resistant to corrosion and wear, ensuring greater durability and a flawless finish that maintains its shine for longer.
Additionally, it is a safe compound for domestic use, as it poses no health risks. Its manufacturing process is more environmentally friendly, contributing to sustainable production.
Choosing faucets with Chrome 3 means opting for quality, safety, and environmental responsibility.

334 CERTIFICATI / *CERTIFICATES*

# Installazione raccomandata / Recommended installation

## Allegato / Annex

## **OTTONE** · BRASS

### FUSO · CAST

La rubinetteria Clever utilizza leghe a purezza elevata, con una quantità di impurità minima. La percentuale di piombo è molto bassa, in linea con le linee guida per il consumo di acqua potabile. La lega priva di pori consente di ottenere una lucidatura di alta qualità. Assenza totale di rotture.

*Clever taps use pure alloys, with a minimum quantity of impurities. The percentage of lead is really low following the strict requirements for fresh water consumption. The alloy being free of pores allows to obtain a high quality polish and a total absence of breakages.*

### STAMPAGGIO · STAMPING

Ottone europeo stampato da estrusione di prima qualità. Norma UE EN 12.164/5. L'ottone di stampaggio contiene una percentuale molto alta di rame (Cu~60%).
La percentuale di stagno è molto bassa (Sn<0,3%); in questo modo si evitano rigidità e possibili danni.

*High quality European stamped Brass according to UE EN 12.164/5 standard . Stamped brass has a high percentage of Cooper (Cu~60%). Very low percentage of Tin (Sn<0,3%), avoids rigidity and possible damages.*

## **COMPONENTI** · COMPONENTS

### TUBI FLESSIBILIS · HOSE BIBS

FLEXITUB, S.L.®

cosedal

Lunghezza 370 mm, ai sensi della norma EN 817. Maschio filettato realizzato in CW617 (Sn<0,3%). Trecciato in acciaio inox AISI 304. Tubo in gomma EPDM o PEX, privo di migrazione di particelle nocive. Ampia copertura delle certificazioni internazionali.
Resistono a pressioni statiche superiori a 130 bar (13 MPa).

*Lenght 370 mm according to the rule EN 817. Male nut produced with CW617 (Sn<0,3%). Braided stainless steel AISI 304. Rubber tube EPDM or PEX, avoiding any particles migration. All worldwide certifications. They resist static pressures higher than 130 bars (13MPa).*

### AERATORI · AERATOR

NEOPERL®

Massima protezione contro i residui di calcare. Ciclo di vita di lunga durata.
Riduzione degli schizzi. Controllo del flusso diretto e del diametro del getto d'acqua.
Producono un flusso diretto, rotondo, indipendente dalla pressione.
Livello minimo di rumore. Consentono di risparmiare acqua e di ridurre i costi energetici.

*Maximum protection against lime residues. Long lifespan. Splashes reduction. Straight flow control and water stream diameter. It produces a straight flow, round, independent to the pressure. Minimum noise level. It allows for water savings and a reduction of energy use.*

## **CROMATO** · CHROMED

Cromatura extra, un processo di cromatura che consiste in 44 fasi che garantiscono resistenza alla corrosione. La superficie deve superare un test di laboratorio e resistere a più di 200 ore di nebbia salina senza difetti evidenti.

*Extra Chromed, our Chrome process consists of 44 steps to warranty the corrosion resistance. The surface has to resist the laboratory test which consists of withstanding > 200 hours salt spray test without observing any defect.*

## **RACCORDO ECCENTRICO**
## ECCENTRIC NUT

Il design interno evita i rumori della circolazione dell'acqua.
Realizzato in CW617 (Sn<0,3%).
Un dispositivo installato all'interno del raccordo eccentrico assorbe il rumore dell'acqua una volta che lo attraversa. Riduce il rumore di circa 20 decibel.

*The inner design avoids noises from the water circulation.*
*Produced with CW617 (Sn<0.3%) One set installed inside the eccentric nut absorbs the noise when the water flows. Noise reduction around 20 decibels.*

## **GARANZIA CLEVER**
## WARRANTY

I rubinetti Clever hanno superato rigorosi controllo della qualità e sono prodotti con i migliori materiali e componenti per offrire comfort e durata. Ecco perché offriamo una garanzia di 5 anni su TUTTA la nostra gamma. Temporizzati, 3 anni.
La rubinetteria Clever soddisfa le specifiche delle norme: UNE 19703 / UNE-EN 817 / UNE-EN 816 / UNE-EN 1111, e la qualità viene garantita ai sensi della norma ISO 9001.

*Clever taps have passed the strictest quality controls as all are produced with the best materials and components in order to offer comfort and durability reason why we offer 5 years guarantee in all our ranges. Timed taps 3 years.*
*Clever taps follow these standards UNE 19703 / UNE-EN 817 // UNE-EN 816 / UNE-EN 1111, and quality is guaranteed according to ISO 9001.*

citec QUORE

# Standard

Sono integrate ceramiche tecniche sintetizzate ad alta precisione con elevata resistenza all'usura. I materiali a contatto con l'acqua soddisfano gli standard sanitari internazionali quali ACS,
KTW & W270, Watermark, ecc. L'elevata sensibilità conferiscealla leva un lungo spostamento laterale compreso tra 34° e 42°, E ci permette di ottenere con estrema precisione la temperatura desiderata.

*The cartidge uses high advanced sintered ceramic disc with high resistance to wear. All material in conctac with water is certified by international norms such ACS, KTW & W270, Watermark, etc.*
*The sensibility of the handle allows us to get the desired temperature.*

citec 50%

# EcoNature

Il sistema EcoNature è composto da una cartuccia a 2 posizioni calibrata in base alle impostazioni di fabbrica, che offre un elevato livello in termini di comfort e di usabilità. Il sistema si basa su un meccanismo situato all' interno della cartuccia.
Con un tocco delicato fornisce la portata necessaria per l'uso del rubinetto (con un risparmio di circa il 50% sul consumo giornaliero di acqua); se si desidera il massimo della portata, è necessario esercitare una leggera pressione sulla maniglia verso l'alto fino a raggiungere il massimo movimento della leva.

*The EcoNature system consists of an Economizer Cartridge with two positions, assembled and calibrated in the factory, which offers a high level of comfort and it is very easy to use. The system is based on an end located in the interior of the cartridge, with a smooth gesture provides the necessary volume to guarantee*
*a sufficient water flow for daily use (saving approximately a 50% in the water consumption), if the maximum volume is desired it is only necessary to rise the handle till the maximum position.*

citec

# ColdOpen

Il sistema Cold Open consente di risparmiare acqua calda grazie al corretto funzionamento della leva. Nella posizione centrale, a differenza del resto della rubinetteria, non miscela acqua calda e fredda, ma solo acqua fredda.
Per ottenere acqua calda o tiepida è necessario ruotare l'impugnatura verso sinistra.

*The Cold open system allows to save hot water thanks to the operation of the handle. In its central position, unlike the rest of the taps, it does not mix hot and cold water, the water is only cold. To obtain hot or warm water, turn the handle to the left.*

cosedal 38°

# Termostatici

Stabilità: la temperatura rimane costante. Confort: compensa in modo automatico le variazioni di temperatura. Sicurezza: in caso di interruzione di fornitura dell'acqua fredda, la cartuccia non lascia passare immediatamente l'acqua calda e previene il rischio di eventuali ustioni. Precisione: rubinetti tarati a 38°C. Temperatura esatta. Accuratezza: cartuccia sintetica speciale, insensibile al calcare (Ca). Tracciabilità: marcatura STH e data per un migliore controllo e tracciabilità.

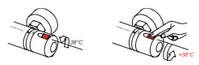

Stability: the temperature remains constant. Comfort: automatically compensates temperature changes. Safety: If the cold water supplied is interrupted, the cartridge will not let hot water enter and avoid scalding. Accuracy: tap scalibrated at 38 ° C. Exact Temperature. Exactitude: special synthetic cartridge, insensitive to the lime (Ca). Traceability: STH brand and date marked for a higher control and monitoring.

## SICUREZZA · *SECURITY*

### SAFETY BLOCK
Arresto di sicurezza per termostatiche
*Security system for thermostatic*

Un dispositivo che impedisce di superare involontariamente i 38°C involontariamente. L'utente deve premere il pulsante per raggiungere temperature più elevate. Ideale per la sicurezza dei bambini. Blocco automatico in caso di interruzione della fornitura di acqua fredda nell'impianto.

*This mechanism prevents the water temperature from involuntarily exceeding 38oC . Higher temperatures are only made possible by pressing the appropriate button on the handle. This is an ideal protection device for young children. Flow automatically shuts off if the cold-water supply is interrupted.*

### CLINICO
Azionamento tramite gomito
Elbow activated mixer handle

La maniglia gerontologica Clever è ideale per i luoghi in cui le esigenze igieniche sono elevate. Inoltre l'utente può installarla su altri rubinetti Clever. Per la compatibilità consultare il servizio tecnico clienti.

*The Clever hygienic handle is ideal for situations where a high degree of hygiene is a must. This special handle fits most Clever mixer models and can be easily retrofitted. Please check with our technical department for compatibility.*

### TEMPERATURA MASSIMA
Blocco della temperatura a 50°C
*Restricts temperatures more than 50°C*

La rubinetteria viene bloccata a un massimo di 50°C, l'utente non può conseguire temperature più elevate. Ideale per evitare eventuali ustioni. Blocco automatico in caso di interruzione di fornitura di acqua fredda all'impianto.

*The tap contains a mechanism that restricts temperatures more than 50oC, which is ideal to avoid accidental scalding. Flow automatically shuts off if the cold-water supply is interrupted.*

### BLOCCO ANTIVANDALO
Blocco della fornitura dell'acqua dopo 60 secondi
*Shuts off the water supply in 60 seconds*

Tecnologia destinata alle rubinetterie installate in luoghi pubblici. L'arresto automatico avviene dopo 60 secondi, evitando inutili sprechi d'acqua. Perfetto per luoghi come aeroporti, hotel o ristoranti.

*Designed for taps installed in public areas. Flow stops automatically after 60 seconds, preventing unnecessary waste. Ideal for places such as airports, hotels, or restaurants.*

## AMBIENTE · *ENVIRONMENT*

### PUBLIC PLACE
Progettati per i luoghi pubblici
*Designed for public places*

Le linee di prodotti temporizzati e elettronici Clever sono specificamente pensati per i luoghi pubblici. Automatico, a prova di vandalo, sistema di risparmio idrico intelligente e sistema di smontaggio a scomparsa

*The Clever delay action and sensor taps range is particularly suitable for public areas. These mixers are automatic, vandal-proof and are equipped with an intelligent water-conservation system. The dismantling points of these mixers are cleverly concealed.*

### ECO SYSTEM
Sistema a portata limitata
*Limited flow system*

Sistema ecologico con portata limitata da 1l/min a 9l/. min, per lavabi, docce, vasche con doccia e lavelli.

Environmental flow reduction system from 1l/min to 9l/min. Ideal for shower, basin, bath/ shower and sink mixers.

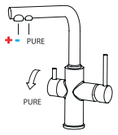

### AIR ADVANCED
Miscelazione di aria e acqua
*Air and water mixing device*

I soffioni e le doccette Clever utilizzano la tecnologia AIR Advanced. Attraverso l'iniezione di aria prima dell'uscita dell'acqua, è possibile dare volume alle gocce, ottenendo una sensazione più morbida e confortevole sotto la doccia.

*Our technologically advanced Clever shower heads and handsets are equipped with AIR Advanced technology, which reduces water consumption by at least 30%.*

### WATER QUALITY
Rubinetterie per impianti di qualità dell'acqua
*Purified water supply taps*

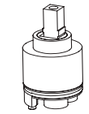

Rubinetteria appositamente ideata per convogliare l'acqua proveniente da impianti per il trattamento dell'acqua.
*Specially designed faucets to deliver drinking water from water purifying equipment.*

## CARTUCCE IN CERAMICA · *CERAMIC CARTRIDGES*

### ECONATURE
Cartuccia con apertura a 2 posizioni
*Cartridge with 2 positions*

Il sistema EcoNature è composto da una cartuccia a 2 posizioni calibrata in base alle impostazioni di fabbrica, che offre un elevato livello in termini di comfort e
di usabilità. Il sistema si basa su un meccanismo situato all' interno della cartuccia.

*The Econature system consists of a 2-position cartridge which is pre-set during production. The special mechanism located inside the cartridge ensures both comfort and ease of use.*

### COLD OPEN
Rubinetteria con apertura a freddo
*Cold Open heat-conserving mixers*

Il sistema Cold open consente di risparmiare acqua calda grazie all'azionamento della leva. Nella posizione centrale, a differenza di quello che succede con altre rubinetterie, non viene mescolata l'acqua calda con la fredda, ma l'acqua è solo fredda. Per ottenere acqua calda o tiepida è necessario ruotare la leva verso sinistra.
The Cold open system enables energy conservation by suppressing the mixing of hot and cold water while the handle is in a central position. Hot water mixing only occurs when turning the handle to the left-hand side.

### ECO CARTRIDGE
Cartuccia Eco con limitatore di portata.
*Eco-friendly cartridge with flow restrictor*

Le cartucce ecologiche sono state ideate per limitare la portata. È possibile risparmiare acqua e al tempo stesso garantire il massimo comfort.

*Eco cartridges have been especially designed to limit the flow of water. This cartridge is very efficient in water conservation whilst providing maximum comfort.*

## TECNOLOGIA · *TECHNOLOGY*

### WATERFALL
Effetto a cascata
Waterfall effect

L'effetto WATERFALL significa un cambio nel concetto di rubinetteria. Il getto ne esalta l'estetica e riproduce la forza innata alla natura.

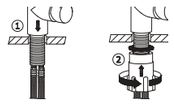

With our Waterfall effect we have introduced a new concept in bathroom mixers in which we achieved a higher level in design whilst simultaneously reproducing the force of nature.

### PULL-OUT
Rubinetteria estraibile
*Pull-out mixers*

Rubinetteria da cucina con manico estraibile.
*Mixer with pull-out extendable flexible spout.*

### EASY FIX
Facile da installare, senza attrezzi.
*Easy mixer installation tool*

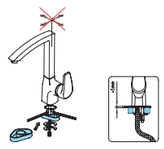

Dispositivo che consente l'assemblaggio a mano, senza necessità di utilizzare attrezzi.
*This specialised tool enables a fast and easy DIY installation of Clever mixers without the need for additional tools.*

### SUPERFIX
Sistema anti-movimento per lavelli
*Under-sink support for kitchen mixers*

I rubinetti da cucina Clever sono dotati di una base che si appoggia alla parte inferiore dei lavelli in acciaio inox e che impedisce al rubinetto di muoversi quando viene azionato.

*This robust under-sink base provides additional support for Clever kitchen mixers and prevents lateral movement.*

## TECNOLOGIA · *TECHNOLOGY*

**CERAMIC CONTROL**
Meccanismo/Cartuccia deviatrice con dischi in ceramica
*Headwork/Diverter cartridge with ceramic disc*

I meccanismi/cartucce deviatrici sono ruotabili di 90° e 180° con i dischi in ceramica, ossido di alluminio puro al 99% e indistruttibili. Per ridurre la conduzione del calore, viene montato un isolante termico. Che evita eventuali ustioni quando viene azionata la manopola.

*The 99% pure aluminium oxide discs inside these spindle/diverter cartridges last longer and allow 90° and 180° spindle rotation. A special thermal insulator protects against scalding when touching the mixer handle.*

**HIDE DIVERTER**
Deviatore estetico e funzionale
*Stylish and fully functional diverter*

Questa tecnologia è costituita da un deviatore invisibile che viene azionato da spostando il tubo flessibile in posizione verticale per eseguire il cambio. Un mix di estetica e funzionalità.

*This concealed inverter can be activated by pulling out the hose bib, vertically.*

**REGOLABILE**
Aeratore regolabile
*Swivel aerator*

Aeratore che consente di indirizzare il getto d'acqua fino alla direzione desiderata, ottenendo così un maggiore comfort.

*This aerator allows you to aim the flow of water in any desired direction for additional comfort.*

**ANTIVANDALO**
Aeratore antivandalo
*Anti-vandal aerator*

Per una sicurezza totale, questo aeratore richiede un attrezzo speciale per lo smontaggio.

*This aerator requires a special dismantling tool for additional security.*

**SENZA CONTATTO**
Rubinetteria elettronica contactless
*Contactless electronic mixers*

Sistema di rilevamento per l'azionamento automatico dell'uscita dell'acqua, senza la necessità di toccare il rubinetto con le mani.

*Advanced sensor system activates the flow of water without the need for any physical contact.*

**COLD TOUCH**
Rubinetterie anti ustione
*Anti-scalding design*

Lo speciale design delle nostre docce e delle nostre vasche con doccia con il sistema COLD TOUCH, fanno in modo che, per nessuna ragione il corpo si riscaldi in modo eccessivo e si producano ustioni. Ideale per la sicurezza dei bambini.

*Our specially designed COLD TOUCH shower and bath-shower mixers prevents the mixer body from becoming too hot thereby protecting young children and senior citizens from scalding.*

**MAGNET FIXING**
Sistema di fissaggio tramite magneti
*Magnetic attachment system*

Per un maggiore comfort, la doccia è fissata tramite magneti all'erogatore, facilitando l'utilizzo del lavello.

*The shower head is magnetically held in place for additional comfort.*

**EURO SLOT HANG**
Imballaggio comprensivo di gancio
*Packaging includes tab*

Imballaggio con euro gancio incluso, perfetto per da utilizzare con espositori o banconi. Imballaggio versatile e funzionale.

*Packaging includes euro hanger which makes it ideal for hanging the product on display stands.*

**3M**
Sistema di fissaggio adesivo
*Adhesive fixing system*

Sistema di fissaggio adesivo 3M ad alte prestazioni per installazione senza forature.

*High-performance 3M adhesive mounting system for drill-free installation*

**SILICON TECH**
Funzione anticalcare
*Anti-limescale function*

Grazie alla tecnologia SiliconTech, è possibile eliminare facilmente i depositi di calcare dai getti di docce e rubinetteria, grazie alla silicone integrata. Il getto presenta un diametro più piccolo che garantisce benessere.

*Thanks to SiliconTech technology, limescale deposits can be easily removed from the spray jets in showers and faucets, thanks to the integrated silicone. The spray features a smaller diameter that enhances comfort.*

## DESIGN E QUALITÀ · *DESIGN & QUALITY*

**TOP WARRANTY**
Garanzia di qualità di 10 anni
*10 years warranty*

La rubinetteria Clever viene sottoposta a severi controlli di qualità.
Ecco perché offriamo una garanzia di 10 anni sull'intera gamma dei nostri prodotti.

*Clever mixers are subject to stringent quality control checks which enables us to offer a 10-year guarantee on our entire range.*

**TOP WARRANTY**
Garanzia di qualità di 5 anni
*5 years warranty*

La rubinetteria Clever viene sottoposta a severi controlli di qualità.
Ecco perché offriamo una garanzia di 5 anni sull'intera gamma dei nostri prodotti.

*Clever mixers are subject to stringent quality control checks which enables us to offer a 5-year guarantee on our entire range.*

**TOP WARRANTY**
Garanzia di qualità di 3 anni
*3 years warranty*

La rubinetteria Clever viene sottoposta a severi controlli di qualità.
Ecco perché offriamo una garanzia di 3 anni su tutti i nostri accessori.

*Clever accessories are subject to stringent quality control checks which enables us to offer a 3-year guarantee on our entire range.*

**BREVETTATO**
Design industriale esclusivo e brevettato
*Exclusive patented design*

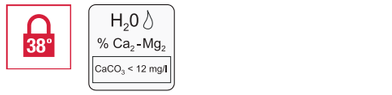

Clever brevetta i propri disegni e modelli presso l'ente ufficiale per la registrazione di disegni, modelli e marchi. Questo è uno dei motivi per cui ci distinguiamo e siamo incamminati verso il futuro. Le serie brevettate vengono riconosciute nei paesi dell' Unione europea.

*All our Clever designs are officially registered and patented. This differentiates us from our competitors and fully supports us along our journey into the future. All our patents are exclusive in all EU countries.*

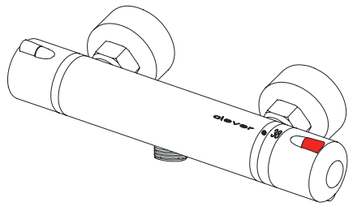

**LEAD - FREE**
Tecnologia senza piombo
*Lead-Free Technology*

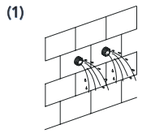

Materiali senza piombo che evitano la contaminazione dell'acqua e rispettano le normative internazionali di qualità.

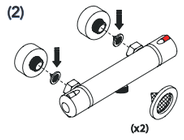

*Lead-free materials that prevent water contamination and comply with international quality regulations.*

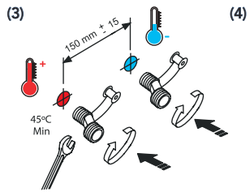

# Termostatici
*Thermostatics*

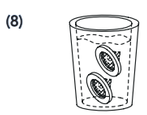

**QUANDO SI INSTALLANO I RUBINETTI TERMOSTATICI**

(1) Le tubazioni devono essere accuratamente spurgate in modo da rimuovere sabbia e particelle solide dall'interno.
(2) È FONDAMENTALE installare filtri all'ingresso dell'acqua calda e fredda.
(3) È ESSENZIALE che la presa dell'acqua calda sia situata a sinistra e quella dell'acqua fredda a destra.
(4) PRESSIONE: Evitare una pressione dell'acqua inferiore a 1 bar o superiore a 10 bar. La pressione raccomandata è da 3 a 5 bar.
(5) Utilizzare caldaie elettriche della capacità massima possibile, minimo 200 litri, o caldaie a gas con una portata minima di 11 litri al minuto. Delle caldaie a gas di piccole dimensioni (6 litri) al minuto) non consentiranno al rubinetto di funzionare in modo appropriato.
(6) Si consiglia di isolare termicamente le tubazioni dell'acqua calda.
(7) Si consiglia di installare tubazioni con un diametro minimo di 15 mm.

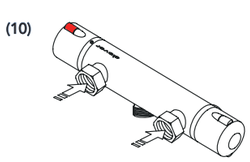

*WHEN INSTALLING THERMOSTATIC TAPS*

*(1) Water outlets have to be carefully cleaned to eliminate sand and dirty from inside them.*
*(2) It's indispensable to place the filters in the cold and hot inlets.*
*(3) It's INDISPENSABLE to place hot water inlet in left side and cold water inlet in the right side*
*(4) PRESSURE: Avoid installing these thermostatic taps when the water pressure is less than 1 bar or more than 10 bar. The recommended pressure is between 3 to 5 bar.*
*(5) Use electric heaters with as much capacity as possible, minimum 200 liters, or gas heaters with a minimum capacity of 11 liters per minute. Small gas heaters (6 liter per minute) will not allow the thermostatic tap to work properly.*
*(6) We recommend thermal isolation for the hot water pipes.*
*(7) We recommend installing pipes with a minimum diameter of 15 mm.*

**MANUTENZIONE**

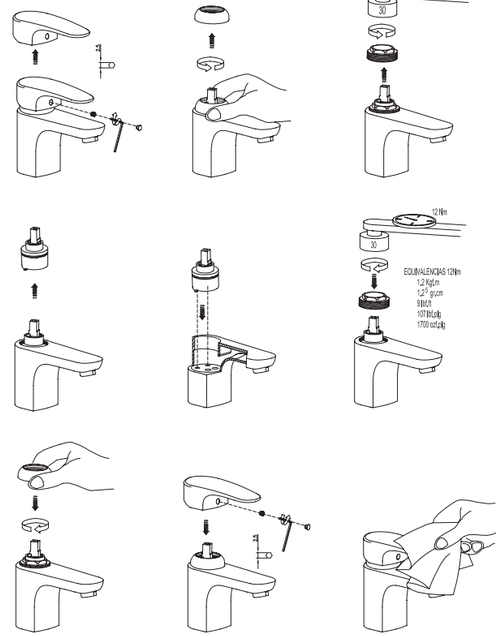

(8) È necessario pulire i filtri periodicamente, soprattutto se la portata diminuisce senza ragione o se la temperatura non può essere correttamente regolata.
(9) Se il rubinetto termostatico non funziona in modo corretto, controllare la portata, che deve essere superiore agli 11 litri al minuto.
(10) Se l'impianto non funziona correttamente, controllare le valvole di non ritorno che si trovano in entrambi gli ingressi.

*MAINTENANCE*

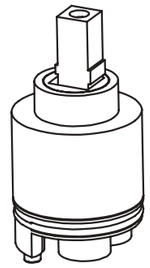

*(8) Is necessary to clean regularly the filters, especially if the flow-rate decrease unjustifiably, or if temperature cannot be regulated properly.*
*(9) If the thermostatic faucet doesn't work correctly, please check the flow-rate, there should be at least 11 liters per minute.*
*(10) If the whole installation does not work appropriately, check the two check-valves placed in both inlets.*

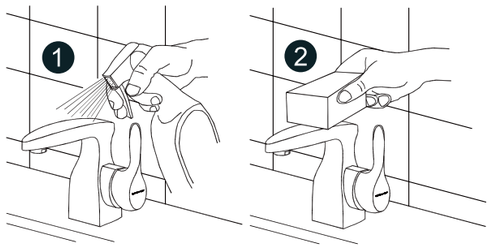

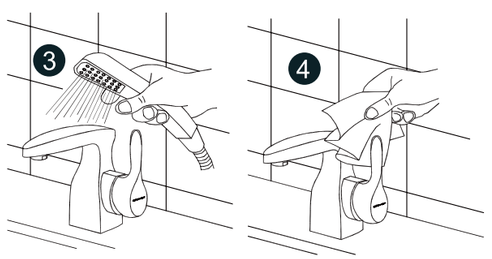

# Sostituzione della cartuccia
*Change cartridge*

1. Rimuovere la vite
2. Estrarre la leva, svitare la mascherina
3. Estrarre la mascherina, svitare il dado
4. Rimuovere il dado
5. Rimuovere la cartuccia, pulire l'interno del rubinetto
6. Sostituire la cartuccia, montare le parti.

*1. Remove screw*
*2. Remove handle, unscrew the rossette*
*3. Remove the rosette and unscrew the nut*
*4. Remove nut*
*5. Cartridge Remove, clean inside faucet*
*6. Replace cartridge, assemble parts.*

# Manutenzione
*Maintenance*

1. Pulire con un detergente liquido.
2. Utilizzare una spugna, una pelle di daino o un panno morbido.
3. Sciacquare la rubinetteria con acqua.
4. Asciugare dopo ogni utilizzo.
5. NON utilizzare prodotti acidi o abrasivi (HCl, HNO3, H2SO4...). I prodotti contenenti HCl, acido cloridrico sono fortemente sconsigliati in quanto distruggono il cromo in pochi secondi.
6. NON utilizzare strofinacci o spugnette abrasive

La nostra garanzia non copre i danni causati da un uso improprio.

*1. Clean with liquid detergent.*
*2. Use a sponge, suede or soft flannel.*
*3. Rinse the tap with water.*
*4. Dry after every use.*
*5. DO NOT use acids or abrasive products (HCl, HNO3, H2SO4…). Products containing HCl, hydrochloric acid (muriatic acid) must be completely avoided, they destroy chrome in few seconds.*
*6. DO NOT use any type of scouring pad.*
*Our guarantee does not cover damage caused by any inappropriate use.*

# Termini e condizioni di vendita

**1. Informazioni Generali**
Le vendite del GRUPPO STH, costituito da Standard Hidráulica e Hidrogas Canalizaciones, S.A.U., saranno regolate dalle presenti Condizioni Generali di Vendita, salvo che non sia stato espressamente concordato diversamente nella conferma d'ordine o nell'offerta.

**2. Prezzi**
I prezzi inclusi nella tariffa vengono espressi in € (tasse escluse). Ordine minimo: 350€, tranne in Clever, dove non esiste un ordine minimo. Politica dei costi di spedizione:
L'importo dell'ordine per SPESE PAGATE sarà determinato in base alle condizioni particolari di ciascun paese e cliente. Nel territorio di Spagna e Portogallo, gli ordini con un valore netto superiore a 200€ per Clever o 450€ per il resto dei cataloghi saranno spediti come SPESE DI SPEDIZIONE PAGATE. Al di sotto di tale importo verrà addebitato un importo fisso in fattura di 9€, o se si preferisce, a spese di trasporto a carico dell'acquirente. Escluse le isole Canarie, Ceuta, Melilla, le Azzorre e Madeira dove l'ordine minimo per SPESE DI SPEDIZIONE PAGATE è di 1.000 euro. Al di sotto di questo importo, le spese di trasporto verranno addebitate in fattura secondo la tariffa dell'agenzia. I prezzi e i costi di cui sopra, così come gli eventuali costi associati, non comprendono l'IVA corrispondente che deve essere aggiunta, secondo l'aliquota prevista dalla normativa vigente. Il GRUPPO STH si riserva il diritto di modificare i prezzi della tariffa in vigore in qualsiasi momento e senza preavviso. I prezzi applicabili sono quelli vigenti al momento dell'ordine. In caso di invio di campioni, le spese saranno a carico del cliente,
le quali gli verranno a loro volta accreditate a condizione che il progetto, per il quale sono stati inviati, si concretizzerà in un ordine.

**3. Orario di consegna e scarico delle merci**
Gli ordini ricevuti senza una data di consegna saranno consegnati nell'arco del più breve tempo possibile.
Le date di consegna indicate nella conferma d'ordine sono approssimative.
Le consegne anticipate e le consegne parziali sono consentite in assenza di un accordo scritto che le vieti.
L'impossibilità di effettuare o servire un ordine a causa di scioperi, mancate trattative, chiusura dell'attività e le relative conseguenze verranno considerate come cause di forza maggiore ed esonerano il GRUPPO STH dall'obbligo di consegnare la merce e il cliente non potrà richiedere alcun tipo di risarcimento.
In caso di dilazione del pagamento di fatture insolute, nonché di mancato pagamento delle stesse, e/o nel caso in cui il cliente superi il limite di credito assicurato da GRUPO STH, gli ordini in attesa di consegna verranno trattenuti fino alla risoluzione di tale incidenza.

**4. Fatturazione**
Il Gruppo STH si riserva il diritto di spedire e fatturare gli ordini del cliente da una qualsiasi delle società del gruppo, a seconda della situazione creditizia del cliente.
I dettagli dell'azienda fornitrice devono essere riportati sulla bolla di consegna e non si accettano modifiche dopo la spedizione..

**5. Condizioni di pagamento**
Il giroconto SEPA sarà emesso entro un massimo di 30 giorni dalla data della fattura.
Il mancato pagamento di una fattura alla scadenza comporta l'immediata sospensione della fornitura dei materiali.
Nel caso in cui il GRUPPO STH conceda al Cliente una dilazione di pagamento di una fattura oltre la data di scadenza inizialmente concordata, verrà applicata una penale del 3% mensile.
In caso di mancato pagamento, la penale sarà del 5% mensile, con un minimo di 15€, a cui si aggiungerà il 3% mensile a partire dal 2° mese di ritardo.
Indipendentemente dal concetto che il cliente attribuisce a un pagamento, i pagamenti effettuati saranno imputati in primo luogo alle penalizzazioni per proroga e/o mancato pagamento, e successivamente al capitale dei debiti con scadenza più antica.
Le transazioni commerciali sono assicurate da una società di assicurazione crediti

**6. Reso della merce**
Tutte le richieste di reso devono essere analizzate e accettate dal GRUPPO STH, e il cliente deve comunicarne i motivi, giustificando la data di acquisto con la fattura. I resi di materiale non difettoso devono essere gestiti entro 15 giorni dalla consegna del materiale. Verranno analizzati in base ai criteri stabiliti dal gruppo STH. Il reso di materiale fuori catalogo o fuori garanzia non verrà accettato. Verrà applicata una nota di demerito ai resi accettati, che può variare dal 15% al 60% a seconda dell'anno di acquisto e a condizione che sia in perfette condizioni di vendita. Le spese di spedizione saranno a carico del cliente.

**7. Reclami, garanzia e risarcimento**
Ai sensi della normativa vigente, la richiesta di risarcimento per danni o malfunzionamenti della merce trasportata, nonché per differenze di quantità ricevute, devono essere notificate entro le 24 ore successive alla ricezione conforme delle stesse, salvo che il danno sia evidente al momento della ricezione delle merci, nel qual caso deve essere comunicato immediatamente, annotandolo anche sul documento di consegna del trasportatore. Successivamente alle 24 ore, i reclami verranno considerati fuori tempo massimo e saranno respinti.
La garanzia applicabile sui prodotti del GRUPPO STH sarà di 5 anni per la rubinetteria e 3 anni per il resto dei prodotti, salvo diversa indicazione nel catalogo.
La data di acquisto deve essere giustificata adeguatamente tramite la relativa fattura di acquisto. Affinché la garanzia sia valida, è necessaria l'accettazione del difetto da parte del dipartimento tecnico.
Vengono esclusi dalla garanzia i danni causati da installazione, manutenzione e pulizia improprie, così come un uso inadeguato e l'usura naturale.
La garanzia copre la sostituzione del materiale senza ulteriori oneri, limitando la nostra responsabilità alla sostituzione o alla riparazione delle parti difettose riconosciute dal GRUPPO STH, senza alcun indennizzo. Nel caso in cui il prodotto non sia fuori produzione, verrà fornito un prodotto simile di pari qualità.
Con l'obiettivo di migliorare il design e la funzionalità, ci riserviamo il diritto di modificare i nostri prodotti.

**8. Responsabilità civile derivante dal prodotto**
Il GRUPPO STH è responsabile solo per i danni derivanti da difetti originali di qualità interna dei prodotti.
Il GRUPPO STH non sarà mai responsabile per i danni derivanti da apparenti difetti di qualità dei prodotti che avrebbero potuto essere rilevati dal cliente prima della rivendita o del montaggio in qualsiasi opera e/o installazione, così come per i danni derivanti da una cattiva installazione e/o manipolazione per inadempienza delle condizioni di montaggio, messa in servizio e utilizzo (ad esempio, le istruzioni per l'uso) o delle condizioni amministrative stabilite.
Le limitazioni di responsabilità verranno applicate integralmente agli acquirenti successivi, con l'obbligo di essere adottate da tutti i futuri acquirenti.
Si stabilisce un limite massimo della responsabilità civile che il GRUPPO STH assumerà per danni causati dai prodotti, per un importo pari a 2.000 €..

**9. Danni ai destinatari**
Nel caso in cui il cliente venga a conoscenza di danni che potrebbero derivare da installazioni effettuate con i prodotti e sistemi del GRUPPO STH (in particolare in caso di reclamo formale o legale da parte del destinatario al cliente), dovrà notificare per iscritto con urgenza e senza indugio al GRUPPO STH e fornire la verifica, la valutazione e le cause del danno in modo da poter determinare cause e responsabilità.
In nessun caso il GRUPPO STH sarà responsabile di eventuali richieste di risarcimento danni derivanti dai prodotti (sia per azioni dirette che per azioni di rivalsa), a meno che non abbia avuto la possibilità di valutare e verificare la realtà del danno e le possibili cause.

**10. Giurisdizione e diritto applicabile**
Per quanto riguarda eventuali controversie che dovessero insorgere nell'ambito del rapporto contrattuale tra GRUPPO STH e il cliente, saranno competenti le corti e i tribunali della città di Barcellona. Si conviene inoltre che la legge applicabile sarà quella del diritto spagnolo.

**11. Validità**
Le presenti condizioni di vendita sostituiscono le precedenti condizioni di vendita e rimarranno in vigore fino alla pubblicazione di eventuali modifiche sul sito www.standardhidraulica.com.

# Sales conditions

**1.General**
The following sales conditions pertain to all sales performed by STH GROUP (Standard Hidraulica, S.A.U. and Hidrogas Canalizaciones, S.A.U.), except for any special conditions on specific offers or order confirmations.

**2.Prices**
Prices shown in our price list are in euros, excluding VAT, and under Ex Works Montcada i Reixac conditions.
The minimum order value to get free shipping cost, will be determined based on the specific conditions of each country and customer.
STH Group reserves the right to modify prices in this price list without prior notice.
Prices applied will be those on the date of order receipt.
Shipping costs for samples will be at the customer's expense.

**3.Delivery of the goods**
Orders with no specific delivery time, will be dispatched at the first available opportunity.
Kindly note that any delivery dates appearing on the order confirmation are only estimates, moreover advanced deliveries and partial dispatches will be authorized, unless there is a written agreement to the contrary, between both parties.
Any inability to process or deliver an order, for reasons that include, but are not limited to industrial action, breakdown of the negotiations, business closure and any related consequences, will be considered a force majeure and will automatically release STH Group from any obligation to supply the goods on order. Furthermore, the customer may not claim for any incurred damages.
In the case of postponing payment of any outstanding invoices or failing to settle them and/or exceeding the assured credit limit, any outstanding orders will be kept in our warehouse until the incident is solved. Moreover, STH Group will become the owner of the goods until the pertinent invoice is settled in full.

**4.Invoices**
All the commercial deals are insured by an Insurance Company.
STH Group reserves the right to invoice the customer through any company from within the Group, depending on the insurance amount that the client has. The company's details will appear on the delivery note, without the possibility of changing it, once the document is sent.

**5.Payment conditions**
All invoices must be settled within 30days from invoice date.
Any remaining balances after the due date will automatically block the delivery of other shipments.
All payment conditions on the invoice must be strictly adhered to and any changes must be agreed in advance.
The Company reserves the right to charge interest at a rate up to 3% monthly, and the non-payment will be charged up to 5%, with a minimum amount of 15 €, and a further 3% will be added each month, following the second month of the delay.
Any incurred penalties will first be deducted from late payments, BEFORE the invoice is credited.
If the payment is not insured, payment terms will be agreed between STH Group and the client.

**6.Returned goods and dispatch**
All claims must first be analyzed and accepted by STH Group, previously the customer should inform about the reasons why he/she wants to return it and justifying when it was bought with the invoice.
Returns resulting from delivery mistakes like product identity errors and/or quantity discrepancies (excluding defective goods), should be affected not later than 15 days from delivery.
Any discontinued items or items outside their warranty period will not be accepted.
Goods which have been returned for different reasons other than the ones mentioned above, will incur an extra charge (between 15% and 60%), depending on when it was bought and the condition of the product itself. Transport costs are to be paid by the customer.
Please note that any products which are either discontinued or outside the guarantee period, will not be accepted.

**7.Claims, warranty, and compensation**
Any fault or anomaly, including a shortfall in the assured quality of the product, must be reported in writing within 24hours from receipt of the goods, unless the problem is not immediately visible. Once this problem is detected, you must notify it together with the delivery note stamped by the forwarder. After the 24hourse the claims will be rejected.
The guarantee that will be applied STH Group products will be 5 years for the mixers and 3 years for the rest of the products, except for those that the catalogue gives a superior one.
To validate a warranty the customer must send the invoice, which clearly shows the purchase date. This is subject that the defect will be accepted by our technical department.
Guarantee periods will start from the invoice date. Any damages resulting from improper installation and/or improper maintenance, as well as bad cleaning practices and/or inappropriate use of the product will not be covered by the guarantee.
The guarantee covers replacement or repair of the claimed goods. If these are discontinued, they will be substituted by similar products.
We reserve the right to modify any product design and functionality without prior notice.

**8. Civil Liability**
STH GROUP will only be responsible for the claims related to internal product defects.
The company will not be responsible for visible damages which could have already been detected, or any issue caused by a wrong installation or manipulation, resulting from not following the installation guide properly.
The limitations of responsibility will be applied in full on successive purchasers and must be adopted by all future ones.
For any claims STH Group must be informed immediately and in writing, making sure that all the necessary information to show the cause and possible responsibility of the STH Group are included.
The maximum limit of liability which will be paid by STH Group, derived from a faulty product, will be 2.000€

**9. Consignee damages**
In the case of a claim that STH Group products may have caused some form of damage on an installation (especially when it is officially demanded by the customer), the Company should be informed immediately by writing, making sure to include an estimate of the cost of damages and their cause.
STH will never answer any claim, before carefully checking all the damages and possible causes.

**10. Jurisdiction and applicable Law**
Any potential lawsuits that may arise between the Company and the customer, will be heard in the Courts and Tribunals of Barcelona. Likewise, it is agreed that the applicable Law will be Spanish Law.

**11. Validity**
These Sales Conditions cancel all the previous ones, and they will be valid until any modification is published on our website www.standardhidraulica.com
