TORNEIRAS BANHO & COZINHA

Avançamos contigo!

We move forward with you!

A **Grifería Clever** nasce em 1998 da **Standard Hidráulica**, empresa fundada em Barcelona em 1975 e reconhecida como um dos principais fabricantes de torneiras e acessórios para cozinha e casa de banho em Espanha. Com uma filosofia baseada na qualidade, no serviço, na atenção cuidada ao cliente, na constante investigação tecnológica e no respeito pelo meio ambiente.

A Standard Hidráulica faz parte do STH Group, um grupo industrial internacional com sede em Barcelona e filiais em França e na Grécia, o que nos permite reforçar a nossa capacidade comercial, logística e de serviço, sempre com uma clara vocação internacional.

A Clever é hoje uma marca em constante evolução, preparada para acompanhar projetos profissionais com soluções fiáveis, eficientes e sustentáveis.

Clever taps was created in 1998 by Standard Hidráulica, a company founded in Barcelona in 1975 and recognized as one of the leading manufacturers of taps and accessories for kitchens and bathrooms in Spain. It is built on a philosophy based on quality, service, attentive customer care, continuous technological research, and respect for the environment.

Standard Hidráulica is part of STH Group, an international industrial group headquartered in Barcelona with subsidiaries in France and Greece, which strengthens our commercial, logistical, and service capabilities, always with a clear international business focus.

Today, Clever is a constantly evolving brand, ready to support professional projects with reliable, efficient, and sustainable solutions.

Soluções integrais desde 1975

Integral solutions since 1975

SOLUÇÕES

As soluções STH são integradas eficientemente no coração dos edifícios e nas redes de distribuição e são fáceis de especificar e instalar, tendo uma contribuição fundamental no funcionamento ótimo das instalações. A filosofia da empresa baseia-se na qualidade, serviço, investimento, competitividade e inovação.

STH solutions are efficiently integrated into the heart of buildings and distribution networks having a fundamental contribution into the optimal operation of the facilities. The company's philosophy is based on quality, service, investment, competitiveness and innovation.

Os nossos pilares

O objetivo da STH é ser reconhecida como a empresa líder em cada um dos mercados estratégicos:

Our pilars | STH's goal is to be recognized as the leading company in the following strategic markets:

Torneiras

A STH desenvolve uma gama exclusiva e completa de torneiras e acessórios para casas de banho e cozinhas. Qualidade, inovação, tecnologia, design e ecoeficiência são as marcas da Clever.

Clever, exclusive range of taps, mixers and showers for kitchens and bathrooms.

Válvulas, sistemas e conexões

Soluções para tubos domésticos de água e gás e sistemas completos de tubagem, acessórios e válvulas.

Connection solutions for thermal and sanitary networks in buildings.

Aa pessoas, o maior ativo

Winning with people

Os nossos valores:

Our values:

Seja **empreendedor**	Tome a **iniciativa**	Alcançar a **excelência**	Partilhar **e aprender**	Agir com **integridade**
Be an entrepreneur	*Take ownership*	*Go for excellence*	*Share and learn*	*Act with integrity*
Realizamos sonhos	Cumprimos as nossas promessas	Atingimos limites desafiando o status quo	Aprendemos e avançamos graças ao trabalho em equipa	Somos profissionais, agimos de forma exemplar
We make dreams come true	*We keep our promises*	*We reach limits by challenging the status quo*	*We learn and move forward through teamwork.*	*We are professionals, we act in an exemplary manner*

O nosso plano de igualdade

Our equality plan

A STH é também uma empresa certificada com as normas ISO 9001 e ISO 14001, e com a aplicação da Lei da Igualdade, promovendo ações dentro da empresa que favoreçam a igualdade de oportunidades para todos os colaboradores da STH.

STH is also an ISO 9001 and ISO 14001 certified company, and with the application of the Equality Law, promoting actions within the company that favour equal opportunities for all STH staff.

Na Standard Hidráulica reafirmamos o nosso compromisso na luta contra as alterações climáticas

At Standard Hidráulica we reaffirm our commitment to the fight against climate change.

Cultura de qualidade, inovação, tecnologia, design e compromisso com o meio ambiente

Culture of quality, innovation, technology, design and commitment with the environment

Nos nossos centros técnicos de engenharia, utilizando ferramentas de última geração, desenvolvemos soluções inovadoras e famílias de produtos que cumprem os mais exigentes requisitos de qualidade e padrões de certificação. Em linha com esta abordagem de qualidade, **a STH possui as certificações ISO9001, ISO14001 e o selo de cálculo da PEGADA DE CARBONO**, que credencia o compromisso com o meio ambiente, minimizando os impactos ambientais e favorecendo a melhor gestão dos recursos.

At our technical engineering centers, we develop innovative solutions and products that fits with the most stringent quality and certifications. STH has the ISO9001, ISO 14001 and the CARBON FOOTPRINT calculation stamp which certifies the commitment with the environment, minimizing environmental impacts and supporting the best resources management.

Produtos e soluções eficientes para melhorar a sustentabilidade e o bem-estar nas casas

Efficient products and solutions to improve sustainability and well-being in homes

As soluções da STH para instalações térmicas e sanitárias operam no coração dos edifícios (desde as redes públicas até ao interior da residência). Às vezes são invisíveis, mas dão sempre uma contribuição sustentável e fundamental na forma como um edifício funciona. A visão ambiental da Standard Hidráulica declara a intenção do Grupo STH em garantir a eficiência energética e a sustentabilidade.

A STH trabalha há muitos anos com diferentes intervenientes do setor da construção e empresas de água e gás, acompanhando clientes e profissionais para os ajudar realizar os seus projetos e garantir a criação de valor mútuo.

STH's solutions for thermal and sanitary installations operate in the buildings heart (from public networks to inside the residences). Sometimes they are invisible, but always make a sustainable and fundamental contribution to the building functioning. Standard Hidraulica's environmental vision declares the intention of STH Group to guarantee energy efficiency and sustainability.

STH has been working together with different partners within the building sector, water and gas companies.. for many years. Accompanying customers and partners to help them to reach their targets to fulfill the projects and guarantee the mutual value creation.

ECONOMIZA ÁGUA E ENERGÍA

WATER AND ENERGY SAVINGS

Segundo o IDAE, 17% do consumo de energia do agregado familiar corresponde à água sanitária. É uma quantidade média de 100 litros por pessoa. No que refere ao maior consumo de energia dos hotéis, é na produção de água quente sanitária, que chega a 25% da fatura de energía. Seja a cuidar do ambiente, a ensinar as nossas crianças a cuidar do planeta, ou a economizar na conta no final do mês, a verdade é que há muitos sistemas para poupar água e energia:

According to IDAE, the 17% of the energy consumption corresponds to sanitary water. Optimal consumption is an average amount of 100 litres per person. The aspect in which tourist accommodation consumes the most is in the production of sanitary hot water that accounts for 25% of the energy bill. Either for taking care of the environment, teaching our children to take care of the planet or by saving money at the end of the month, the truth is that there are many systems to save water and / or energy:

Building Research Establishment (BRE) é a entidade que o gestiona. Fundada em 1921, foi a primeira organização orientada para a investigação no sector da edificação no Mundo. Idependente e sem lucros, atualmente leva a cabo a investigação, acessoriamento e testes para os setores da Construção.

The Building Research Establishment (BRE) is the company that manages it. Founded in 1921, it was the first research-oriented organization in the building sector in the world. It currently conducts research, advice and testing for the construction sectors.

Spain Green Building Council é a primeira associação Espanhola sem fins lucrativos de empresas lideres da industria da Construção que trabalham juntas para promover cidades e edificios ecológicos, rentavéis e saudavéis.

Spain Green Building Council is the first national non-profit association of leading companies of the construction industry working together to promote environmentally responsible, cost-effective and healthy cities and buildings.

GBCe é uma associaçãosem fins lucrativos que representa todos os agentes do sector de edificios com o fim de contribuir para uma Construção sustentavél, compatível com os objetivos de desenvolvimento de sustentabilidade das nações unidas.

GBCe is a non-profit association that brings together representatives of all actors in the building sector in order to contribute to the transformation of the market towards a sustainable building concept, consistent with the United Nations Sustainable Development Goals.

APOIANDO A EFICIÊNCIA DA ÁGUA

SUPPORTING WATER EFFICIENCY

O que é a certificação **UWLA**?

What is UWLA certification?

O rótulo UWLA, Unified Water Label Association, visa estabelecer a classificação energética padronizada em toda a Europa de todos os produtos de torneira que utilizam água em seu funcionamento, para que o usuário possa entender visualmente seu nível de eficiência energética.

The UWLA label, Unified Water Label Association (www.uwla.eu), aims to establish the standardised, Europe-wide energy standardised across Europe for all water-using faucet products. So that the user can visually understand their level of energy efficiency.

Poupança de água e energia

As torneiras certificadas UWLA, como as que desenvolvemos na Clever Faucets, são projetadas para limitar ao máximo o fluxo de água, com valores que podem chegar a 50%, mas sempre sem comprometer a experiência do usuário, ou seja, o conforto na obtenção de água. Isto não só poupa água, como também reduz a energia necessária para a aquecer, o que se traduz num menor consumo de energia.

Water and energy savings

UWLA-certified taps, such as those developed at Clever Taps, are designed to limit water flow as much as possible, with values up to 50%, but always without compromising the user experience; or in other words, the comfort in obtaining water. Is not only water, but also reduces the energy required to heat it, which translates into lower energy consumption.

Sustentabilidade Ambiental

Quando o consumo de água e energia é reduzido, estamos a contribuir diretamente para a preservação dos recursos naturais do planeta e para a mitigação das alterações climáticas.

Environmental sustainability

By reducing water and energy consumption, we are contributing directly to the preservation of the planet's natural resources and the mitigation of the climate change.

Poupança a curto prazo

Ao escolher um produto com a distinção UWLA, o utilizador tem a garantia de ter escolhido um produto que o ajudará a consumir água e energia de uma forma mais inteligente e eficiente. Algo que, sem dúvida, pode fazer a diferença no consumo, uma vez que 70% da água consumida numa casa é dedicada às funções de lavagem e higiene pessoal, enquanto 25% da energia consumida é utilizada para aquecer essa água.

Short-term financial savings

By choosing a product with the UWLA label, the user is guaranteed to have chosen a product that will help him to save water and energy in a smarter and more efficient way.

This can make a difference in consumption; because the 70% of the water consumed in a house is dedicated to washing and personal hygiene, while 25% of the energy consumed is used to heat the water.

EPD®
THE INTERNATIONAL EPD® SYSTEM

As Torneiras Clever obtêm o certificado EPD®

Environmental Product Declaration

A certificação **EPD®/DAP** foi rigorosamente verificada pela TECNALIA R&I CERTIFICATION S.L. como empresa certificadora independente, para ser registada e publicada no Sistema Internacional EPD®.

The EPD certification has been rigorously verified by TECNALIA R&I CERTIFICATION S.L. as an independent certifying company, to be registered and published in the International EPD System.

Transparência no ciclo de vida dos nossos produtos e **compromisso** com o meio ambiente.

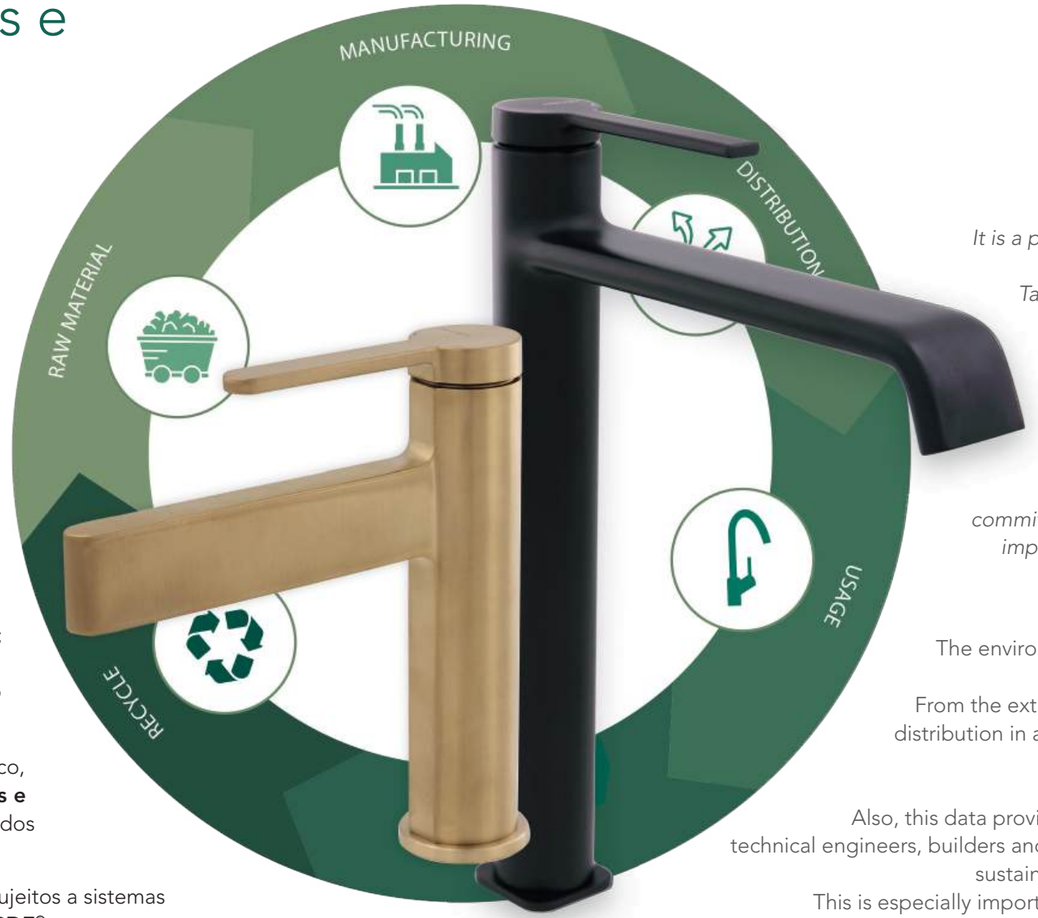

Como resultado da nossa política de compromisso com o meio ambiente, a **Clever Taps** obteve a prestigiosa certificação **EPD®** (Environmental Product Declaration) ou (Declaração Ambiental de Produto) para praticamente todos os seus produtos, abrangendo uma ampla gama de categorias nas famílias de Torneiras de Bancada (Lavatório, Bidé e Lava-loiça), Torneiras de Parede e Torneiras Termostáticas, incluindo os Conjuntos de Duche, entre muitos outros produtos.

A certificação **EPD®/DAP** atesta o c**ompromisso do fabricante em medir e reduzir o impacto ambiental dos seus produtos e serviços** e em comunicar esses impactos de forma responsável e transparente.

O desempenho ambiental do produto é descrito através da realização de uma avaliação do **ciclo de vida (ACV)** do produto; desde a extração de **matérias-primas**, o processo de **fabrico,** a **distribuição** em todas as suas fases, a **utilização** do produto e o seu **fim de vida**, terminando com a **reciclagem** do produto.

Além disso, estes dados estão a atender um vasto público técnico, composto por **arquitectos, engenheiros técnicos, construtores e projectistas**, informações importantes sobre a sustentabilidade dos seus projectos de construção integrados.

Isto é especialmente importante para projectos de construção sujeitos a sistemas de certificação internacionais como o **BREEAM®, LEED® ou VERDE®.**

Transparency in the life cycle of our products and commitment to the environment

It is a pleasure to inform you that as a result of our policy of commitment to the environment, Clever Taps has obtained the prestigious EPD (Environmental Product Declaration) certification in practically all its products, covering a wide range of categories in the families of Deck mounted Taps (Washbasin, Bidet and Sink), Wall Taps and Thermostatic Taps, including Shower Sets among many more products.

The EPD certification accredits the manufacturer's commitment to measuring and reducing the environmental impact of its products and services and reports on these impacts in a responsible and transparent manner.

The environmental performance of the product is described by conducting a product life cycle assessment (LCA)
From the extraction of raw materials, the manufacturing process, distribution in all its phases, the use of the product and recycling as the end of its life.

Also, this data provides a broad technical audience including architects, technical engineers, builders and designers, with important information regardinghe sustainability of their comprehensive construction projects.
This is especially important for construction projects subject to international certification schemes such as **BREEAM®, LEED® or VERDE®**.

AREADOR ORIENTAVÉL
Swivel aerator

Para maior comodidade durante o seu uso. O Angulo de saída de agua pode-se ajustar diretamente no areador: ± 6 ° hasta ± 10 °

For better comfort during its use. The angle of the water stream can be adjusted directly at the aerator: ± 6° up to ± 10°.

ACABAMENTO CRÓMIO 3

O CRÓMIO 3 é um acabamento superficial ideal para torneiras devido à sua estabilidade, segurança e baixo impacto ambiental.

1
Este elemento é altamente resistente à corrosão e ao desgaste, o que garante uma maior durabilidade e um acabamento impecável que mantém o seu brilho por mais tempo.

2
É um composto seguro para uso doméstico, pois não apresenta riscos à saúde.
O seu processo

3
de fabrico é mais amigo do ambiente, a contribuir para uma produção sustentável.

Escolher torneiras com cromado 3 é optar pela qualidade, segurança e responsabilidade ambiental.

CHROME 3 FINISH

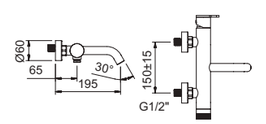

Chrome 3 is an ideal surface finish for faucets due to its stability, safety, and low environmental impact.
This element is highly resistant to corrosion and wear, ensuring greater durability and a flawless finish that maintains its shine for longer.
Additionally, it is a safe compound for domestic use, as it poses no health risks. Its manufacturing process is more environmentally friendly, contributing to sustainable production.
Choosing faucets with Chrome 3 means opting for quality, safety, and environmental responsibility.

iKansas características

iKansas features

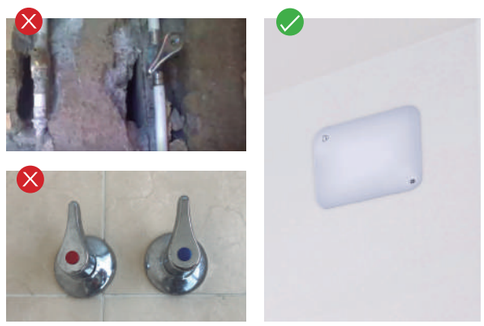

- Suportes cerâmicos 90°.
  Ceramic cartridges with a 90° turn
- iKansas Box tem pouca profundidade: 60 mm. Esta desenhado para ser usado em todo o tipo de paredes ou estruturas de gesso.
  iKansas Box is not too deep (60 mm). It"s been designed to be used in every type of wall or any plaster.
- Installation facile et rapide
  Its installation is fast and easy
- PN 10 e Temp. máximo 90°C.
  PN 10 and max. temperature 90°C.
- A capa do Ikansas está disponível em três cores: branco, prateado e preto.
  The lid is available in three colors: white, silver and black

Porquê o Ikansas?

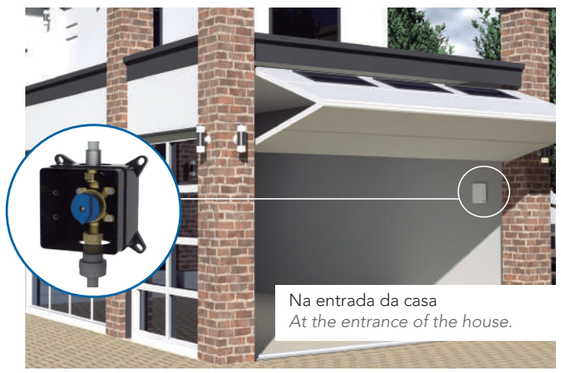

Why iKansas?

O iKansas é fácil de manter. Permite a substituição das válvulas de corte instaladas sem necessidade de partir a parede, graças ao seu sistema de entrada frontal.

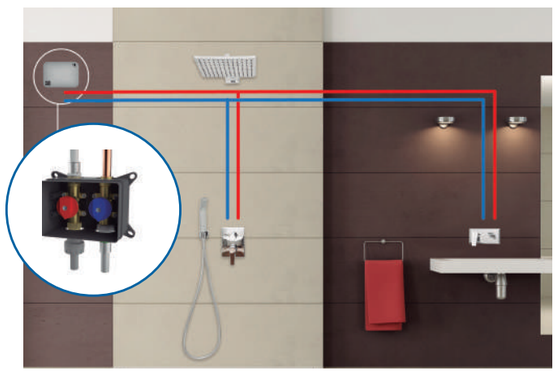

iKansas is easy to maintain. It allows us to replace the installed shut-off valves without having to break the wall thanks to its front entry system.

ACABAMENTO CRÓMIO 3

O CRÓMIO 3 é um acabamento superficial ideal para torneiras devido à sua estabilidade, segurança e baixo impacto ambiental.

1

Este elemento é altamente resistente à corrosão e ao desgaste, o que garante uma maior durabilidade e um acabamento impecável que mantém o seu brilho por mais tempo.

2

É um composto seguro para uso doméstico, pois não apresenta riscos à saúde.

3

O seu processo de fabrico é mais amigo do ambiente, a contribuir para uma produção sustentável.

Escolher torneiras com cromado 3 é optar pela qualidade, segurança e responsabilidade ambiental.

CHROME 3 FINISH

Chrome 3 is an ideal surface finish for faucets due to its stability, safety, and low environmental impact.
This element is highly resistant to corrosion and wear, ensuring greater durability and a flawless finish that maintains its shine for longer.
Additionally, it is a safe compound for domestic use, as it poses no health risks. Its manufacturing process is more environmentally friendly, contributing to sustainable production.
Choosing faucets with Chrome 3 means opting for quality, safety, and environmental responsibility.

TORNEIRA REBATIVEL PARA BANCAS COM JANELAS
Practical solution for sinks below a window

Com esta torneira podes abrir a janela da cozinha sem que o cano seja um obstáculo. A torneira inclina-se completamente, evitando assim que obstrua a janela. Baixa com um suave gesto e dispõe de varios pontos de fixação. Volta a sua posição vertical fácilmente

With this kitchen tap you can open the window without obstacles. Practical solution for sink mixers below a window.
With this kitchen tap you can open the window without any obstacle. The tap totally bends softly allowing to open the window without any inconvenience. You can return the spout to its original position easily.

LATÃO · BRASS

FUNDIDO · CAST

As torneiras Clever são fabricadas ligas puras, com uma mínima quantidade de impurezas.A percentagem de chumbo é muito reduzida, em conformidade com aorientações para o consumo de água potável. A liga sem poros permite obter um polimento de alta qualidade. Ausência total de ruturas.

Clever taps use pure alloys, with a minimum quantity of impurities. The percentage of lead is really low following the strict requirements for fresh water consumption. The alloy being free of pores allows to obtain a high quality polish and a total absence of breakages.

ESTAMPAGEM · STAMPING

Latão europeu estampado por extrusão de alta qualidade. Norma UE EN 12.164/5. O latão de estampagem contém uma percentagem muito elevada de cobre (Cu~60%). A percentagem de estanho é muito reduzida (Sn<0,3%), evitando a rigidez e possíveis danos.

High quality European stamped Brass according to UE EN 12.164/5 standard . Stamped brass has a high percentage of Cooper (Cu~60%). Very low percentage of Tin (Sn<0,3%), avoids rigidity and possible damages.

COMPONENTES · COMPONENTS

MANGUEIRAS · HOSE BIBS

FLEXITUB, S.L.®

cosedal

Comprimento 370 mm, de acordo com a norma EN 817. Macho roscado fabricado com CW617 (Sn<0,3%). Entrançado em aço inoxidável AISI 304. Tubo de borracha EPDM ou PEX, isento de migração de partículas nocivas. Grande cobertura das certificações internacionais. Resistem a pressões estáticas superiores a 130 bar (13 MPa).

Lenght 370 mm according to the rule EN 817. Male nut produced with CW617 (Sn<0,3%). Braided stainless steel AISI 304. Rubber tube EPDM or PEX, avoiding any particles migration. All worldwide certifications. They resist static pressures higher than 130 bars (13MPa).

AREADOR · AERATORS

NEOPERL®

Máxima proteção contra os resíduos de calcário. Vida útil de longa duração. Redução de salpicos. Controlo da retidão do fluxo e do diâmetro do jato de água. Produzem um fluxo reto e arredondado, independentemente da pressão. Nível mínimo de ruído. Permitem poupar água e reduzir os custos de energia.

Maximum protection against lime residues. Long lifespan. Splashes reduction. Straight flow control and water stream diameter. It produces a straight flow, round, independent to the pressure. Minimum noise level. It allows for water savings and a reduction of energy use.

CROMADO · CHROMED

Cromagem extra, um processo de cromagem que compreende 44 etapas que garantem a resistência à corrosão. A superfície deve resistir a um ensaio laboratorial que consiste em suportar mais de 200 horas de nevoeiro salino sem que surjam defeitos.

Extra Chromed, our Chrome process consists of 44 steps to warranty the corrosion resistance. The surface has to resist the laboratory test which consists of withstanding > 200 hours salt spray test without observing any defect.

EXCÊNTRICA
ECCENTRIC NUT

O design interior evita o ruído da circulação da água. Fabricado com CW617 (Sn<0,3%). Um dispositivo instalado no interior da excêntrica absorve o ruído da água ao passar através dela. Reduz o ruído em cerca de 20 decibéis.

The inner design avoids noises from the water circulation.
Produced with CW617 (Sn<0.3%) One set installed inside the eccentric nut absorbs the noise when the water flows. Noise reduction around 20 decibels.

GARANTIA CLEVER
WARRANTY

As torneiras Clever passaram por rigorosos controlos de qualidade e são fabricadas com os melhores materiais e componentes para oferecer conforto e durabilidade. É por isso que oferecemos uma garantia de 5 anos em TODA a nossa gama. Com temporizador, 3 anos. As torneiras Clever cumprem as especificações das normas: UNE 19703, UNE-EN 817, UNE-EN 816 e UNE-EN 1111, e a qualidade é garantida pela conformidade com a norma ISO 9001.

Clever taps have passed the strictest quality controls as all are produced with the best materials and components in order to offer comfort and durability reason why we offer 5 years guarantee in all our ranges. Timed taps 3 years.
Clever taps follow these standards UNE 19703 / UNE-EN 817 // UNE-EN 816 / UNE-EN 1111, and quality is guaranteed according to ISO 9001.

citec QUORE

Standard

As cerâmicas técnicas sintetizadas de alta precisão são incorporadas com elevada resistência ao desgaste. Todos os materiais em contacto com a água cumprem as normas sanitárias internacionais, como a ACS, KTW e W270, Watermark, etc. Grande sensibilidade garantida pelo manípulo, que permite uma deslocação lateral longa entre 34° e 42°. Isto permite-nos obter a temperatura desejada com exatidão.

The cartidge uses high advanced sintered ceramic disc with high resistance to wear. All material in conctac with water is certified by international norms such ACS, KTW & W270, Watermark, etc.
The sensibility of the handle allows us to get the desired temperature.

citec

50%

EcoNature

O sistema EcoNature é composto por um cartucho com 2 posições, calibrado de fábrica, o que oferece um elevado nível de conforto e facilidade de utilização. O sistema baseia-se num mecanismo situado no no interior do cartucho.
Com um gesto suave, fornece o caudal necessário para uma utilização quotidiano da torneira (poupando cerca de 50% do consumo diário de água). Se pretender o caudal máximo, é necessário exercer uma ligeira pressão no manípulo para cima, até atingir a abertura máxima do manípulo

The EcoNature system consists of an Economizer Cartridge with two positions, assembled and calibrated in the factory, which offers a high level of comfort and it is very easy to use. The system is based on an end located in the interior of the cartridge, with a smooth gesture provides the necessary volume to guarantee a sufficient water flow for daily use (saving approximately a 50% in the water consumption), if the maximum volume is desired it is only necessary to rise the handle till the maximum position.

citec

ColdOpen

O sistema Cold Open poupa água quente graças ao funcionamento do manípulo. Na sua posição central, ao contrário de outras torneiras, não mistura água quente e fria, mas apenas água fria.
Para obter água quente ou morna, rode o manípulo para a esquerda.

The Cold open system allows to save hot water thanks to the operation of the handle. In its central position, unlike the rest of the taps, it does not mix hot and cold water, the water is only cold. To obtain hot or warm water, turn the handle to the left.

cosedal

38°

Termostáticas

Estabilidade: a temperatura mantém-se constante. Conforto: compensa automaticamente as variações de temperatura.
Segurança: se o fornecimento de água fria for interrompido, o cartucho não deixa passar a água quente imediatamente, evitando queimaduras.
Precisão: torneiras calibradas a 38 °C. Temperatura exata.
Precisão: cartucho sintético especial, insensível ao calcário (Ca). Rastreabilidade: marcação STH e data, para melhor controlo e rastreabilidade.

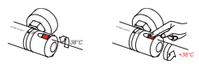

Stability: the temperature remains constant. Comfort: automatically compensates temperature changes. Safety: If the cold water supplied is interrupted, the cartridge will not let hot water enter and avoid scalding. Accuracy: tap scalibrated at 38 ° C. Exact Temperature. Exactitude: special synthetic cartridge, insensitive to the lime (Ca). Traceability: STH brand and date marked for a higher control and monitoring.

SEGURANÇA · *SECURITY*

SAFETY BLOCK
Batente de segurança para termostáticas
Security system for thermostatic

Dispositivo que evita temperaturas superiores a 38°C de forma involuntária. O utilizador deve premir o botão para conseguir temperaturas superiores. Ideal para a segurança das crianças. Bloqueio automático em caso de interrupção do fornecimento de água fria na instalação.

This mechanism prevents the water temperature from involuntarily exceeding 38oC . Higher temperatures are only made possible by pressing the appropriate button on the handle. This is an ideal protection device for young children. Flow automatically shuts off if the cold-water supply is interrupted.

MÉDICO
Acionamento através de cotovelo
Elbow activated mixer handle

O manípulo gerontológico Clever é ideal para locais com requisitos de higiene elevados. Para além disso, o utilizador pode instalá-lo noutras torneiras Clever. Verifique a compatibilidade com o nosso serviço técnico de apoio ao cliente.

The Clever hygienic handle is ideal for situations where a high degree of hygiene is a must. This special handle fits most Clever mixer models and can be easily retrofitted. Please check with our technical department for compatibility.

MAXIMUM TEMPERATURE
Bloqueio de temperatura a 50 °C
Restricts temperatures more than 50°C

A torneira bloqueia-se a um máximo de 50 °C; o utilizador não pode obter temperaturas mais elevadas. Ideal para evitar queimaduras. Bloqueio automático para o caso de interrupção do fornecimento de água fria à instalação.

The tap contains a mechanism that restricts temperatures more than 50oC, which is ideal to avoid accidental scalding. Flow automatically shuts off if the cold-water supply is interrupted.

ANTIVANDALIC BLOCK
Fornecimento de água bloqueado após 60 segundos
Shuts off the water supply in 60 seconds

Tecnologia destinada a torneiras instaladas em locais públicos. Consiste numa paragem automática após 60 segundos, evitando o desperdício de água. Perfeito para locais como aeroportos, hotéis ou restaurantes.

Designed for taps installed in public areas. Flow stops automatically after 60 seconds, preventing unnecessary waste. Ideal for places such as airports, hotels, or restaurants.

MEIO AMBIENTE · *ENVIRONMENT*

PUBLIC PLACE
Concebidas para locais públicos
Designed for public places

As gamas com temporizador e eletrónicas Clever foram especificamente concebidas para locais públicos. Automáticas, à prova de vandalismo, com um sistema inteligente de poupança de água e um sistema de desmontagem oculto.

The Clever delay action and sensor taps range is particularly suitable for public areas. These mixers are automatic, vandal-proof and are equipped with an intelligent water-conservation system. The dismantling points of these mixers are cleverly concealed.

ECO SYSTEM
Sistema com caudal limitado
Limited flow system

Sistema ecológico com caudal limitado de 1 l/min até 9 l/min em lavatórios, duches, banheiras com duche e lava-loiças.

Environmental flow reduction system from 1l/min to 9l/min. Ideal for shower, basin, bath/ shower and sink mixers.

AIR ADVANCED
Mistura de ar e água
Air and water mixing device

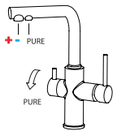

Os pulverizadores e chuveiros Clever utilizam a tecnologia AIR Advanced. Injetando ar antes da saída da água, dão volume às gotas, resultando numa sensação mais suave e confortável durante o duche.

Our technologically advanced Clever shower heads and handsets are equipped with AIR Advanced technology, which reduces water consumption by at least 30%.

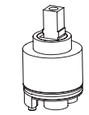

WATER QUALITY
Torneiras para equipamentos de qualidade da água
Purified water supply taps

Torneira especialmente concebida para transportar a água proveniente de equipamentos de água tratada.

Specially designed faucets to deliver drinking water from water purifying equipment.

CARTUCHOS DE CERÂMICA · *CERAMIC CARTRIDGES*

ECONATURE
Cartucho com abertura em 2 posições
Cartridge with 2 positions

O sistema EcoNature é composto por um cartucho com 2 posições, calibrado de fábrica, o que oferece um elevado nível de conforto e facilidade de utilização. O sistema baseia-se num mecanismo situado no interior do cartucho.

The Econature system consists of a 2-position cartridge which is pre-set during production. The special mechanism located inside the cartridge ensures both comfort and ease of use.

COLD OPEN
Torneira de abertura a frio
Cold Open heat-conserving mixers

O sistema Cold Open permite poupar água quente graças ao funcionamento do manípulo. Na sua posição central, ao contrário das restantes torneiras, não mistura água quente e fria. mas apenas água fria. Para obter água quente ou morna, é necessário girar o manípulo para a esquerda.

The Cold open system enables energy conservation by suppressing the mixing of hot and cold water while the handle is in a central position. Hot water mixing only occurs when turning the handle to the left-hand side.

ECO CARTRIDGE
Cartucho ecológico com limitador de fluxo
Eco-friendly cartridge with flow restrictor

Os cartuchos ecológicos foram concebidos para limitar o caudal. Permitem poupar água e oferecem o máximo conforto.

Eco cartridges have been especially designed to limit the flow of water. This cartridge is very efficient in water conservation whilst providing maximum comfort.

TECNOLOGIA · *TECHNOLOGY*

WATERFALL
Efeito de cascata
Waterfall effect

O efeito WATERFALL oferece uma mudança na conceção de torneiras. O jato melhora a sua estética e reproduz a força inata da natureza.

With our Waterfall effect we have introduced a new concept in bathroom mixers in which we achieved a higher level in design whilst simultaneously reproducing the force of nature.

PULL-OUT
Torneira extraível
Pull-out mixers

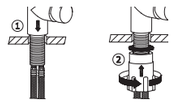

Torneira de cozinha com pega extraível.

Mixer with pull-out extendable flexible spout.

EASY FIX
Instalação fácil, sem ferramentas
Easy mixer installation tool

Dispositivo que permite a montagem manual, sem necessidade de utilizar ferramentas.

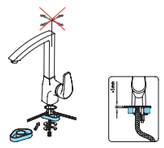

This specialised tool enables a fast and easy DIY installation of Clever mixers without the need for additional tools.

SUPERFIX
Antimovimento para lava-loiças
Under-sink support for kitchen mixers

As torneiras de cozinha Clever têm uma base que é instalada na parte inferior dos lava-loiças de aço inoxidável, evitando o movimento da torneira quando esta é acionada.

This robust under-sink base provides additional support for Clever kitchen mixers and prevents lateral movement.

TECNOLOGIA · *TECHNOLOGY*

CERAMIC CONTROL
Armação/cartucho de inversão com discos de cerâmica
Headwork/Diverter cartridge with ceramic disc

As armações/cartuchos de inversão podem ser rodados a 90° e 180° graças aos discos de cerâmica, óxido de alumínio 99% puro, indestrutível. Para reduzir a condução de calor, é instalado um isolador térmico de modo a evitar queimaduras ao acionar o botão.

The 99% pure aluminium oxide discs inside these spindle/diverter cartridges last longer and allow 90° and 180° spindle rotation. A special thermal insulator protects against scalding when touching the mixer handle.

HIDE DIVERTER
Inversor estético e funcional
Stylish and fully functional diverter

Esta tecnologia consiste num inversor não visível que é acionado ao deslocar a mangueira verticalmente para efetuar a mudança, combinando estética e funcionalidade.

This concealed inverter can be activated by pulling out the hose bib, vertically.

ORIENTÁVEL
Aerador orientável
Swivel aerator

Aerador que permite direcionar o jato de água para a direção desejada, garantindo um maior conforto.

This aerator allows you to aim the flow of water in any desired direction for additional comfort.

ANTIVANDALIC
Aerador à prova de vandalismo
Anti-vandal aerator

Para uma segurança total, este ventilador necessita de uma ferramenta especial para ser desmontado.

This aerator requires a special dismantling tool for additional security.

CONTACTLESS
Torneira eletrónica sem contacto
Contactless electronic mixers

Sistema de deteção para o acionamento automático da saída de água, sem necessidade de tocar na torneira com as mãos.

Advanced sensor system activates the flow of water without the need for any physical contact.

COLD TOUCH
Torneira antiqueimaduras
Anti-scalding design

O design especial dos nossos duches e banheiras com duche com COLD TOUCH, não permitem de modo algum que o corpo aqueça e queime. Ideal para a segurança das crianças.

Our specially designed COLD TOUCH shower and bath-shower mixers prevents the mixer body from becoming too hot thereby protecting young children and senior citizens from scalding.

MAGNET FIXING
Sistema de fixação magnética
Magnetic attachment system

Para um maior conforto, o chuveiro é fixado com um íman magnético ao tubo, facilitando a utilização do lava-loiça.

The shower head is magnetically held in place for additional comfort.

EURO SLOT HANG
Embalagem com suporte incluído
Packaging includes tab

Embalagem com suporte incluído, perfeito para colocar em expositores ou balcões. Embalagem versátil e funcional.

Packaging includes euro hanger which makes it ideal for hanging the product on display stands.

3M
Sistema de fixação adesivo
Adhesive fixing system

Sistema de fixação adesivo 3M de alto desempenho para instalação sem perfurações

High-performance 3M adhesive mounting system for drill-free installation

SILICON TECH
Função anticalcário
Anti-limescale function

Graças à tecnologia SiliconTech, é possível eliminar facilmente os depósitos de calcário dos jatos em duchas e torneiras, graças ao silicone que incorporam. O jato possui um diâmetro mais pequeno que proporciona bem-estar.

Thanks to SiliconTech technology, limescale deposits can be easily removed from the spray jets in showers and faucets, thanks to the integrated silicone. The spray features a smaller diameter that enhances comfort.

DESIGN E QUALIDADE · *DESIGN & QUALITY*

TOP WARRANTY
Garantia de qualidade de 10 anos
10 years warranty

As torneiras Clever são submetidas a rigorosos controlos de qualidade. Por isso, oferecemos uma garantia de 10 anos em todas as nossas gamas.

Clever mixers are subject to stringent quality control checks which enables us to offer a 10-year guarantee on our entire range.

TOP WARRANTY
Garantia de qualidade de 5 anos
5 years warranty

As torneiras Clever são submetidas a rigorosos controlos de qualidade. Por isso, oferecemos uma garantia de 5 anos em todas as nossas gamas.

Clever mixers are subject to stringent quality control checks which enables us to offer a 5-year guarantee on our entire range.

TOP WARRANTY
Garantia de qualidade de 3 anos
3 years warranty

As torneiras Clever são submetidas a rigorosos controlos de qualidade. Por isso, oferecemos uma garantia de 3 anos em todos os nossos acessórios.

Clever accessories are subject to stringent quality control checks which enables us to offer a 3-year guarantee on our entire range.

PATENTED
Design industrial exclusivo e patenteado
Exclusive patented design

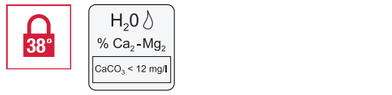

A Clever patenteia os seus desenhos na entidade de registo oficial de desenhos e marcas. É o que nos distingue e abre o caminho para o futuro. As séries patenteadas são reconhecidas para os países da União Europeia.

All our Clever designs are officially registered and patented. This differentiates us from our competitors and fully supports us along our journey into the future. All our patents are exclusive in all EU countries.

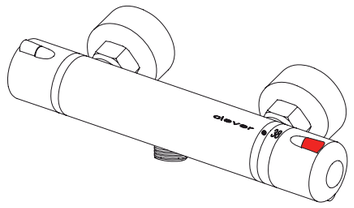

LEAD - FREE
Tecnologia livre de chumbo
Lead-Free Technology

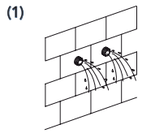

Materiais livres de chumbo que evitam a contaminação da água e cumprem com as regulamentações internacionais de qualidade.

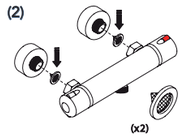

Lead-free materials that prevent water contamination and comply with international quality regulations.

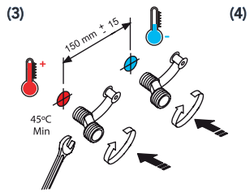

Termostáticas
Thermostatics

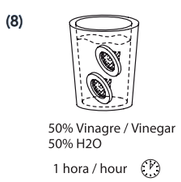

INSTALAÇÃO DE TORNEIRAS TERMOSTÁTICAS

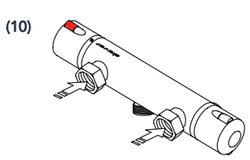

1) Os tubos devem ser cuidadosamente purgados para remover areia e partículas sólidas do seu interior.
2) É ESSENCIAL instalar os filtros nas entradas da água fria e quente.
3) É ESSENCIAL que a entrada de água quente esteja situada à esquerda e a da água fria à direita.
4) PRESSÃO: evite que a pressão de água seja inferior a 1 bar ou superior a 10 bar. A pressão recomendada é de 3 a 5 bar.
5) Utilize caldeiras elétricas com a máxima capacidade possível, no mínimo 200 litros, ou caldeiras a gás com um caudal mínimo de 11 litros por minuto. As caldeiras a gás pequenas (6 litros por minuto) não permitem que a torneira funcione corretamente.
6) Recomendamos aplicar um o isolamento térmico aos tubos de água quente.
7) Recomendamos instalar tubos com um diâmetro mínimo de 15 mm.

WHEN INSTALLING THERMOSTATIC TAPS

(1) Water outlets have to be carefully cleaned to eliminate sand and dirty from inside them.
(2) It's indispensable to place the filters in the cold and hot inlets.
(3) It's INDISPENSABLE to place hot water inlet in left side and cold water inlet in the right side
(4) PRESSURE: Avoid installing these thermostatic taps when the water pressure is less than 1 bar or more than 10 bar. The recommended pressure is between 3 to 5 bar.
(5) Use electric heaters with as much capacity as possible, minimum 200 liters, or gas heaters with a minimum capacity of 11 liters per minute. Small gas heaters (6 liter per minute) will not allow the thermostatic tap to work properly.
(6) We recommend thermal isolation for the hot water pipes.
(7) We recommend installing pipes with a minimum diameter of 15 mm.

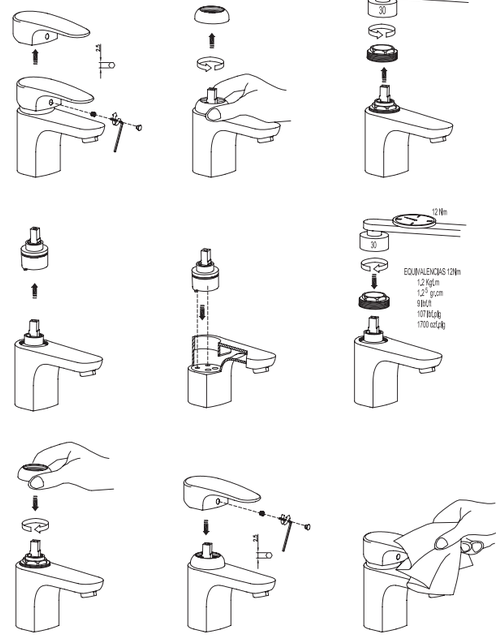

MANUTENÇÃO

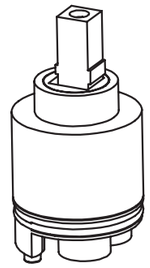

8) É necessário limpar os filtros periodicamente, especialmente se o caudal diminuir injustificadamente, ou se a temperatura não puder ser regulada corretamente.
9) Se a torneira termostática não funcionar corretamente, verifique o caudal, que deve ser superior a 11 litros por minuto.
10) Se toda a instalação não funcionar corretamente, verifique as válvulas de retenção situadas em ambas as entradas.

MAINTENANCE

(8) Is necessary to clean regularly the filters, especially if the flow-rate decrease unjustifiably, or if temperature cannot be regulated properly.
(9) If the thermostatic faucet doesn't work correctly, please check the flow-rate, there should be at least 11 liters per minute.
(10) If the whole installation does not work appropriately, check the two check-valves placed in both inlets.

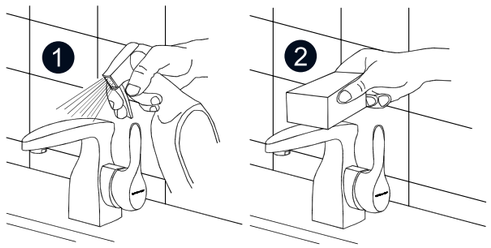

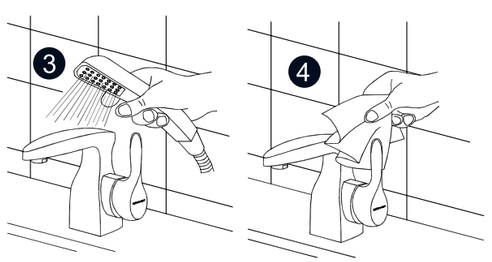

Substituição do cartucho
Change cartridge

1. Retirar o parafuso
2. Retirar o manípulo, desaparafusar o casquilho
3. Retirar o casquilho, desaparafusar a porca
4. Retirar a porca
5. Retirar o cartucho, limpar o interior da torneira
6. Substituir o cartucho, montar as peças.

1. Remove screw
2. Remove handle, unscrew the rossette
3. Remove the rosette and unscrew the nut
4. Remove nut
5. Cartridge Remove, clean inside faucet
6. Replace cartridge, assemble parts.

Manutenção
Maintenance

1. Limpar com detergente líquido.
2. Utilizar uma esponja ou um pano macio.
3. Enxaguar a torneira com água.
4. Secar após cada utilização.
5. NÃO utilizar produtos ácidos ou abrasivos (HCl, HNO3, H2SO4...). Desaconselham-se fortemente os produtos que contêm HCl, ácido clorídrico porque destroem o cromo em poucos segundos.
6. NÃO utilizar qualquer tipo de esfregão.

A nossa garantia não cobre danos causados por uma utilização incorreta.

1. Clean with liquid detergent.
2. Use a sponge, suede or soft flannel.
3. Rinse the tap with water.
4. Dry after every use.
5. DO NOT use acids or abrasive products (HCl, HNO3, H2SO4…). Products containing HCl, hydrochloric acid (muriatic acid) must be completely avoided, they destroy chrome in few seconds.
6. DO NOT use any type of scouring pad.
Our guarantee does not cover damage caused by any inappropriate use.

Condições gerais de venda

Condições gerais de venda

1. Generalidades
As vendas a serem efetuadas pelo GRUPO STH, composto por Standard Hidráulica y Hidrogas Canalizaciones, S.A.U, regem-se pelas presentes condições gerais de venda, exceto todo aquele que esteja expresamente acordado de forma distinta na confirmação do pedido ou Proposta.

2. Preços
Os preços indicados na nossa tarifa estão em euros, sem IVA, e nas condições Ex Works Montcada i Reixac.
O valor mínimo da encomenda para envio gratuito será determinado de acordo com as condições específicas de cada país e cliente.
O Grupo STH reserva-se o direito de modificar os preços desta tarifa sem aviso prévio.
Os preços aplicados serão os da data de receção da encomenda.
Os custos de envio da amostra serão suportados pelo cliente.

3. Prazo de entrega e descarga da mercadoria
Encomendas recebidas sem indicação da data de entrega, será servido no menor período de tempo. As datas de expedição que aparecem na confirmação da encomenda, são meramente indicativos. As entregas anticipadas e remessas parciais deve ser permitida se não houver um acordo escrito que o proíba. A incapacidade de realizar ou atender uma encomenda em razão da greve, fracasso da negociação, fecho de negócios e consequências daí decorrentes serão considerados como força maior e isentar o STH GRUPO da sua obrigação de servir a mercadoria, o cliente não poderá de reivindicar indenização de qualquer maneira. No caso de diferimento do pagamento das faturas pendentes, bem como o seu pagamento, e/ou exceder o limite de crédito do cliente o grupo STH ter segurado, as encomendas pendentes para servir será bloqueado até a resolução do incidente em questão.

4. Facturação
O Grupo STH reserva-se o direito de enviar a fatura e pedidos de clientes por qualquer uma das empresas do grupo, dependendo da situação de crédito do cliente. Os dados do fornecedor empresa será detalhado na factura de venda, não aceitando qualquer modificação após a expedição dos mesmos. Grupo STH trabalha com facturação electrónica.

5. Condições de Pagamento
O limite máximo de pagamento nunca pode ultrapassar os parâmetros previstos na Lei 15/2010 de luta contra os atrasos de pagamento nas transacções comerciais. A falta de pagamento a um vencimento de qualquer factura irá resultar na suspensão imediata do fornecimento de materiais. Caso que o Grupo STH conceda ao cliente um dilatamento do pagamento para além da data de vencimento inicialmente acordado, serão aplicados sobre o montante da factura uma penalização de 3% por mês. Em caso de não pagamento, a pena será de 5% ao mês, com um mínimo de 15€, ao qual é adicionado um 3% mensal a partir do segundo mês de atraso. Independentemente do conceito que o cliente de a um pagamento, os pagamentos serão cobrados em primeiro lugar para as sanções para o adiamento e/ou de não pagamento e, em seguida, para o principal das dívidas que têm uma data de validade. Todas as transacções comerciais são protegidos por um seguro de crédito.

6. Devolução de mercadoria
Todas as solicitações devem ser revistas e aceites pela STH, deve informar o cliente sobre as suas razões e justificando a data de compra com a fatura. Devoluções causadas por defeitos de identidade e/ou quantidade deve ser tratada durante os 15 dias da entrega do material. Para o resto das devoluções serão analisados com base nos critérios estabelecidos pelo grupo STH.
Não aceitaremos qualquer material que seja descontinuado ou fora da garantia. È Aplicado uma desvalorização para devoluções aceites, que podem ir de 15% a 60%, dependendo do ano da compra. Os custos de envio serão cobrados ao cliente.

7. Reclamações, garantia e compensação
De acordo com a legislação em vigor, o pedido de indemnização por danos ou mau funcionamento dos produtos transportados, bem como diferenças de quantidade recebida deve ser feita em 24 horas após a recepção da mesma, exceto que o dano foi evidente no momento do recebimento das mercadorias. O STH garante as torneiras deste catálogo durante 3 -5 anos contra defeitos de fabricação. A data de aquisição deve ser adequadamente justificada pela factura de compra. Durante o período de garantia seja válida, é necessário a aceitação do defeito por parte do departamento técnico. Excluídos da garantía, danos resultantes da instalação, a manutenção e a limpeza não é realizada de acordo com as instruções de montagem, bem como a utilização e desgaste natural. A garantia cobre a substituição do material sem custo, limitando a nossa responsabilidade de substituição ou reparação de peças com defeito reconhecido pelo grupo STH, sem indenização de qualquer espécie. No caso de que o produto esteja descontinuado é fornecido um produto semelhante de igual qualidade. Temporizadas, cartuchos termostáticos mecanismos electrónicos têm uma garantia de 3 anos. Os acessórios (Flexivéis, chuveiros, sprinklers, suportes, etc.) têm uma garantia de 3 anos. Reservamo-nos o direito de modificar o design de nossos produtos sem aviso prévio.

8. Reserva de direito
O GRUPO STH será propietário dos produtos entregues ao cliente até que os mesmos estejam pagos por completo refrente a sua fatura.

9. Responsabilidade Civil derivada do produto
O grupo STH só será responsável por danos decorrentes de defeitos de qualidade interna dos produtos e que já existiam no momento da sua expedição para o cliente.
O Grupo STH nunca será responsável por quaisquer danos decorrentes de defeitos aparentes dos produtos de qualidade e que pode ser detectado pelo cliente antes da revenda ou em qualquer trabalho de montagem e/ou instalação, bem como danos resultantes da instalação incorreta e/ou manipulação de tais produtos, a inobservância das condições de instalação, comissionamento e utilização (como, por exemplo, nas instruções de uso) ou as condições administrativas estabelecidas. As limitações da responsabilidade serão aplicadas completamente aos sucessivos compradores, com a obrigação de ser adotada por todos os futuros compradores.

10. Danos a destinatarios
No caso em que o cliente tem conhecimento, por qualquer motivo, a produção de dano para um destinatário que poderiam ser derivadas de produtos (principalmente no caso de reclamação formal ou legal que o destinatário para o cliente), você deve notificar, por escrito, para urgentemente o GRUPO STH e facilitar a verificação e avaliação de tais danos e suas causas a fim de determinar quem poderia vir as responsabilidades e para não sair do grupo STH em absoluto desamparo. O Grupo STH em nenhum caso ser responsabilizada por qualquer reclamação por danos decorrentes de produtos (quer se trate de acções directas ou repetição) se você ainda não teve a oportunidade de ser capaz de avaliar e verificar a existência de danos e suas possíveis causas.

11. Limitação da responsabilidade civil derivada do Produto
Estabelece-se como límite máximo de responsabilidade civil, que asumirá o GRUPO STH, derivada de danos causados pelos produtos, um montante de 2.000 €.

12. Jurisdição e Direito aplicavél
Com respeito a todos os litigios que surjam da relação contratual entre o GRUPO STH e o cliente, seram da competencia de Juzgados y Tribunales de Barcelona. Dessa forma, se acorda como Direito aplicavél o Direito Espanhol. l.

13. Validade
Estas condições de venda anulam as anteriores e estarão vigentes até qualquer alteração publicada em www.standardhidraulica.com

Sales conditions

1.General
The following sales conditions pertain to all sales performed by STH GROUP (Standard Hidraulica, S.A.U. and Hidrogas Canalizaciones, S.A.U.), except for any special conditions on specific offers or order confirmations.

2.Prices
Prices shown in our price list are in euros, excluding VAT, and under Ex Works Montcada i Reixac conditions.
The minimum order value to get free shipping cost, will be determined based on the specific conditions of each country and customer.
STH Group reserves the right to modify prices in this price list without prior notice.
Prices applied will be those on the date of order receipt.
Shipping costs for samples will be at the customer's expense.

3.Delivery of the goods
Orders with no specific delivery time, will be dispatched at the first available opportunity.
Kindly note that any delivery dates appearing on the order confirmation are only estimates, moreover advanced deliveries and partial dispatches will be authorized, unless there is a written agreement to the contrary, between both parties.
Any inability to process or deliver an order, for reasons that include, but are not limited to industrial action, breakdown of the negotiations, business closure and any related consequences, will be considered a force majeure and will automatically release STH Group from any obligation to supply the goods on order. Furthermore, the customer may not claim for any incurred damages.
In the case of postponing payment of any outstanding invoices or failing to settle them and/or exceeding the assured credit limit, any outstanding orders will be kept in our warehouse until the incident is solved. Moreover, STH Group will become the owner of the goods until the pertinent invoice is settled in full.

4.Invoices
All the commercial deals are insured by an Insurance Company.
STH Group reserves the right to invoice the customer through any company from within the Group, depending on the insurance amount that the client has. The company's details will appear on the delivery note, without the possibility of changing it, once the document is sent.

5.Payment conditions
All invoices must be settled within 30days from invoice date.
Any remaining balances after the due date will automatically block the delivery of other shipments.
All payment conditions on the invoice must be strictly adhered to and any changes must be agreed in advance.
The Company reserves the right to charge interest at a rate up to 3% monthly, and the non-payment will be charged up to 5%, with a minimum amount of 15 €, and a further 3% will be added each month, following the second month of the delay.
Any incurred penalties will first be deducted from late payments, BEFORE the invoice is credited.
If the payment is not insured, payment terms will be agreed between STH Group and the client.

6.Returned goods and dispatch
All claims must first be analyzed and accepted by STH Group, previously the customer should inform about the reasons why he/she wants to return it and justifying when it was bought with the invoice.
Returns resulting from delivery mistakes like product identity errors and/or quantity discrepancies (excluding defective goods), should be affected not later than 15 days from delivery.
Any discontinued items or items outside their warranty period will not be accepted.
Goods which have been returned for different reasons other than the ones mentioned above, will incur an extra charge (between 15% and 60%), depending on when it was bought and the condition of the product itself. Transport costs are to be paid by the customer.
Please note that any products which are either discontinued or outside the guarantee period, will not be accepted.

7.Claims, warranty, and compensation
Any fault or anomaly, including a shortfall in the assured quality of the product, must be reported in writing within 24hours from receipt of the goods, unless the problem is not immediately visible. Once this problem is detected, you must notify it together with the delivery note stamped by the forwarder. After the 24hourse the claims will be rejected.
The guarantee that will be applied STH Group products will be 5 years for the mixers and 3 years for the rest of the products, except for those that the catalogue gives a superior one.
To validate a warranty the customer must send the invoice, which clearly shows the purchase date. This is subject that the defect will be accepted by our technical department.
Guarantee periods will start from the invoice date. Any damages resulting from improper installation and/or improper maintenance, as well as bad cleaning practices and/or inappropriate use of the product will not be covered by the guarantee.
The guarantee covers replacement or repair of the claimed goods. If these are discontinued, they will be substituted by similar products.
We reserve the right to modify any product design and functionality without prior notice.

8. Civil Liability
STH GROUP will only be responsible for the claims related to internal product defects.
The company will not be responsible for visible damages which could have already been detected, or any issue caused by a wrong installation or manipulation, resulting from not following the installation guide properly.
The limitations of responsibility will be applied in full on successive purchasers and must be adopted by all future ones.
For any claims STH Group must be informed immediately and in writing, making sure that all the necessary information to show the cause and possible responsibility of the STH Group are included.
The maximum limit of liability which will be paid by STH Group, derived from a faulty product, will be 2.000€

9. Consignee damages
In the case of a claim that STH Group products may have caused some form of damage on an installation (especially when it is officially demanded by the customer), the Company should be informed immediately by writing, making sure to include an estimate of the cost of damages and their cause.
STH will never answer any claim, before carefully checking all the damages and possible causes.

10. Jurisdiction and applicable Law
Any potential lawsuits that may arise between the Company and the customer, will be heard in the Courts and Tribunals of Barcelona. Likewise, it is agreed that the applicable Law will be Spanish Law.

11. Validity
