CALA

Característico de las Islas Baleares, el mármol Zarci renace como la colección Cala. Un mármol de grano fino, uniforme y con un veteado más claro que proporciona a los ambientes dinamismo y elegancia a partes iguales.

La textura de las piezas hace que la colección destaque por su tacto suave, mientras que sorprende su aspecto abujardado. Junto a unos tonos cálidos y suaves, convierten la colección en una mezcla que atrae y cautiva, transmitiendo paz y bienestar y dotando al espacio de personalidad propia.

Cala is inspired by Zarci marble, a uniform fine-grained marble found in the Balearic Islands, with pale veins conceived to bring dynamism and elegance to living spaces.

The collection stands out for its smooth feel and bush-hammered appearance. In combination with soft warm colours, Zarci infuses living spaces with distinctive personality and a restful sense of wellbeing.

Caractéristique des îles Baléares, le marbre Zarci renaît avec la collection Cala. Un marbre à grain fin, uniforme et avec une veinure plus claire, qui apporte aux ambiances dynamisme et élégance à parts égales.

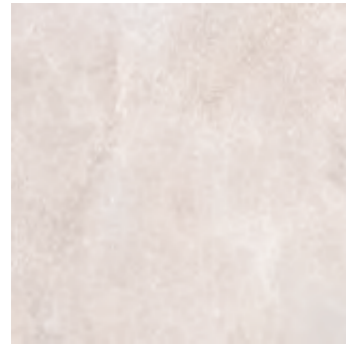

La collection se distingue par son toucher doux dû à la texture des pièces, et surprend par son aspect bouchardé. Ceci, ajouté à des tons chauds et doux, fait de la collection un mélange qui attire et captive, en transmettant une sensation de paix et de bien-être et en dotant l'espace d'une personnalité propre.
