# ABOUT US

AZUVI provides ceramic solutions for indoor and outdoor architecture. Façades, flooring, wall tiles, furniture ... these are our daily challenges. We devote all our attention, sensibility and professionalism to create a wide range of products designed for you.

A particular vision of life.

A brand focused not on the market but on you.

Closer to you, where we should be.

*Since 1956.*

# OUR ORIGINS

AZUVI is a company that specialises in the design and manufacture of ceramic wall and floor tiles for the home and other spaces, providing solutions for the world of architecture.

Our project began in 1956 in Vila-real (Castellón, Spain), as the initiative of some young entrepreneurs who wanted to create a ceramic brand that would be admired for its design and quality.

Our products are marketed all over the world. Ours is a clear example of a company that has managed to combine tradition with wisdom, progress, balance and added value.

*What defines us.*

# HOME OF CERAMICS

**Home of Ceramics** is a declaration of identity and belonging to the Vila-real area, where the ceramic tradition began with Azuvi.

**Home:** from the mountains to the coast, our Mediterranean home is known for its balanced and quality lifestyle. Azuvi represents that people-centred place, the home where we seek wellbeing and recover from the hustle and bustle of everyday life.

**Ceramics:** what we know how to do best. Designing and manufacturing ceramic products inspired by nature and our environment, seeking to offer the best solutions for today's architectural challenges.

*Heritage, tradition, balance and style.*

# OUR VALUES

**Heritage and tradition.** Our history is strongly linked to our area's ceramic tradition. Designing ceramic floor and wall tiles with the best technology, looking to the future.

**Balance and serenity.** Focusing on maintaining balance in spaces enables us to ensure that ceramics convey a sense of wellbeing and serenity.

**Style.** Inspired by the elegance of nature, our products are based on a broad, global vision of the world, highlighting the little details that make all the difference.

# OUR PATH

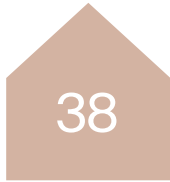

At AZUVI we strive to offer ceramic solutions for indoor and outdoor architecture. Façades, flooring, wall tiles, worktops and furniture.

In 2017, LAMIKER arose from the desire to excel and face new challenges: the design of large-format ceramic sheets, with the most cutting-edge finishes and technological applications, and the opportunity to offer solutions for large architectural and interior design projects.

A blank canvas on which designers, architects and interior designers can unleash their creativity, from inspiring and exciting spaces to the most sophisticated furniture.

# ORGANISATION

Headcount

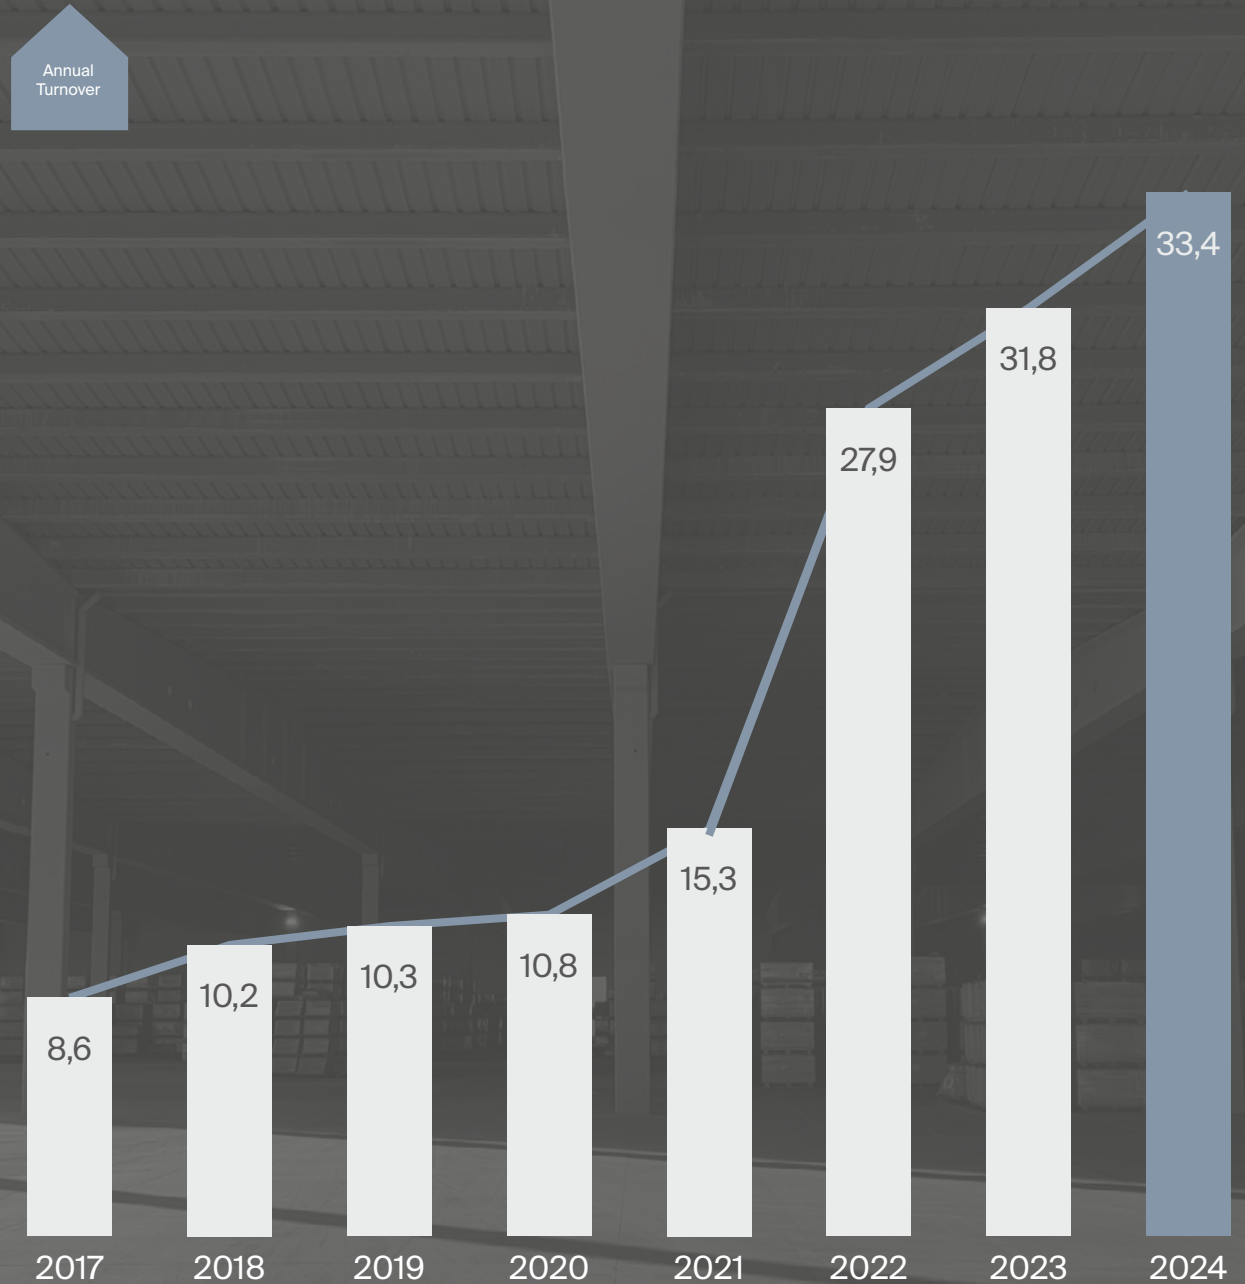

Azuvi was set up as a family business, and day by day we have been growing and putting together a unique team of people who work every day sharing the same passions: art, good design, architecture, a particular focus on the product, and a great deal of care and attention to detail.

# SALES

With sales on 5 continents and in more than 100 countries, Azuvi continues to grow year after year and, in addition, with the incorporation of the Argenta Group in 2021, we have managed to multiply the company's turnover.

We are now in a stage of expansion and growth, going from a turnover of 14.8 million euros in 2021 to 33.4 million euros in 2024, a year on year growth that reaffirms our commitment.

# LOGISTICS CENTRE

Maximum storage capacity:

At Azuvi we have a new logistics centre that will open in 2023. The building's design features an impressive 240-metre-long, 8-metre-high façade.

This new centre will become the company's flagship and enable us to make a great improvement in service and logistics.

# INTERNATIONAL TRADE FAIRS

Azuvi attends the main international ceramics fairs: Cersaie (Bologna, Italy) and Coverings (USA).

We go there to express our essence and know-how, seeking to outdo ourselves every year.
