

APPLICATION

Type E trims are used to create vertical or horizontal straight edges at the end of a run of plasterboard, or where a raised or recessed feature is required. The trims can be used in both wall and ceiling applications and can be factory formed into column rings.

PRODUCT INFORMATION

Supplied in 3000mm lengths, extruded from architectural grade aluminium alloy to BS 1474. Pre-punched with diagonal fixing slots and holes suitable for fixing by drywall screws. The standard finishes are white polyester powder coating to RAL 9010, 20% Gloss, or to order in a full palette of RAL colours, to match and enhance any interior scheme. Unpainted trims also available for onsite painting/spraying, please check with your paint supplier for any additional primer products that may be required. QIC cannot accept any responsibility for the painted finish of products supplied unpainted. Non-standard lengths and alternative factory applied finishes are available to special order. Trims with a custom dimension between 3mm-100mm are available to special order.
