LIGHTING INFORMATION

Light source	LED
Gross luminous flux	2220 Lm
Power	17 W
Power values of the system	17,89 W
Colour temperature	3000 K
Colour Rendering Index	CRI>90
Chromatic stability	Mac Adam Step 2
Light beam angle	24°
Lighting efficiency	90%
Efficacy	131 Lm/W
Current intensity	500 mA
Control through bluetooth	Please Consult
Driver	Included
Electrical insulation class	III
Voltage	48 Vdc
Energy efficiency	A++
LED lifespan	L80B10 (Tj=85°C) >60.000h

OTHER DATA

Ingress Protection	IP20
Swivel angle	270°
Rotation angle	355°
Track type	Track 48V
Weight	835 g.
Packaged weight	1005 g.
Packaging dimensions	274 × 228 × 98 mm.
Units per package	1
Materials	Aluminium / Glass-Trans

Zen Tube is Arkoslight's most awarded spotlight for its design. A very elegant and attractive product. In its reduced dimensions it encloses an outstanding performance for such a minimalistic piece.

For some of its products, Arkoslight offers the possibility to provide them with a special LED, designed to create an illumination focused on visually promoting goods or products for commercial purposes. It is a high chromaticity LED, capable of identifying the colour shades that produce a positive psychological perception of the illuminated object.

This special LED lighting source offers a much more attractive and intense colour range than a conventional LED, besides being much wider. Technically, this is possible thanks to a special LED setting that includes a «special saturation parameter», capable of highlighting the objects colours and materials in such a way that they seem more attractive within the visible light spectrum. To achieve this performance, in each case, the appropriate diode and specific phosphor coating are carefully selected.

	PRODUCT
Model	Anti-glare Honeycomb Louver
Reference	07020200
Category	Accessories

NOT SOLD SEPARATELY.

Accessory made up of louvre in the shape of a honeycomb panel to reduce glare and the effects of direct rays of vision.

	PRODUCT
Model	Elliptical Refractor
Reference	07000800
Category	Accessories

NOT SOLD SEPARATELY.

Lens that modifies the light beam to achieve an elliptical shape through light refraction in its optical glass.

	PRODUCT
Model	Beam Mixer Diffuser
Reference	08050200
Category	Accessories

NOT SOLD SEPARATELY.

The Beam Mixer Diffuser is used to smooth beam artifacts caused by parabolic, Fresnel, or TIR lens collimators without significant broadening.

The unique mixing design provides superior far-field smoothing and color mixing with high on-axis brightness. Compared with traditional diffusers, it maintains higher central beam candlepower (CBCP), and produce less undesirable "field light" at higher angles.
