Art is a minimalist and rational suspended luminaire that allows an ambitious range of composition possibilities. Individually, it transmits a sober look, but when combined – in an ordered or anarchic way – it is revealed as a sculptural piece of Art. This luminaire can offer ambient lighting in any kind of actual interior design project. Its versatility makes possible both, – a discreet lighting over a table or an artistic composition to smoothly light up vertical opened spaces.

DIMENSIONAL DRAWING

Wire Trimless Accessory is a collection of accessories for fitting tensioners and cables to Arkoslight luminaires suspended directly from the ceiling with any visible ceiling rose or fixings. This achieves a minimalist application with a visually tidy finish.

With Wire Trimless Accessory the items adjacent to the ceiling of the standard product (ceiling roses, fixings, driver boxes, etc.) are concealed by a simple recessed application.

Wire Trimless Accessory reduces the visual impact of the installation leading to extremely minimalist aesthetics. The wires come out of the ceiling material as a part of the structure. This detail creates a much purer, more essential layout, particular when several luminaires are fitted in an arrangement.
