

IFU

Plastic  
Cardboard

**To open the cardboard container**  
Hold two corners of the flat packed box and pull them apart in opposite directions. Place your arm inside the container to help separate if needed.

**Lock the container open**  
Turn the carton over and push the sides until the automatic bottom locks open.

**Fill in the label before use**  
This ensures a permanent audit trail.

**Place the container into a plinth**  
All cardboard containers should be placed into a plinth to prevent damage to the base.

**Secure the bag insert**  
Open the bag and place around the perimeter of the carton. Secure in place by folding over each edge of the container.

**Do not overfill**  
Do not fill above the fill line or weight limitation.

**Safer today for a sustainable tomorrow.**
