sharpsafe®

Sharpsafe® Range Instructions for Use
Wall Loop
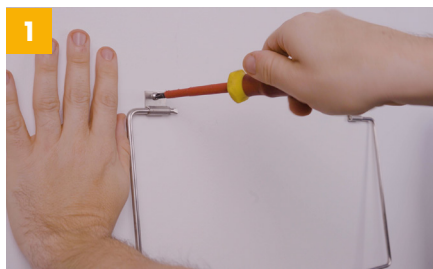

IFU

1

Fix the wall loop to the wall
Fix the wall loop using the provided screws. Place at a height that is safe for use.

2

Assemble your Sharpsafe® container
Assemble your container in line with the relevant IFU. Ensure you have selected the right size container for the wall loop.

3

Place container into temporary closure
When not in use, all containers should be placed in temporary closure.

4

Hold the wall loop
With one hand, hold the wall loop at 90 degrees.

5

Insert container into the wall loop
Holding the container by the handle, place the container vertically above the wall loop and lower into place.

6

Ready for use
Let go of the handle and the container will hang in place ready for use.

7

Replace once full
To release the container, hold the bracket at 90 degrees and lift out the container by the handle.
