

# ARTISTAR INTEGRAL

LED WALL MOUNT - 10W

## Standard Installation

Flammable

Warning

High Voltage

Hot Surface

### TOOLS NEEDED:

-  3/16", 1/8", & 5/64" Allen Wrench
-  Waterproof Wire Connectors
-  Mounting Hardware

### INSTRUCTIONS PERTAINING TO A RISK OF FIRE, OR INJURY TO PERSONS IMPORTANT SAFETY INSTRUCTIONS

#### Lighted fixture is HOT!

#### WARNING - To reduce the risk of FIRE OR INJURY TO PERSONS:

Turn off/unplug and allow to cool before replacing lamp/LED. Fixture gets HOT quickly! Contact only switch/plug when turning on. Do not touch hot lens, guard, or enclosure. Keep fixture away from materials that may burn. Do not operate the luminaire fitting with a missing or damaged shield. Do not touch the source at any time. Use a soft cloth or gloves. Oil from skin may cause damage.

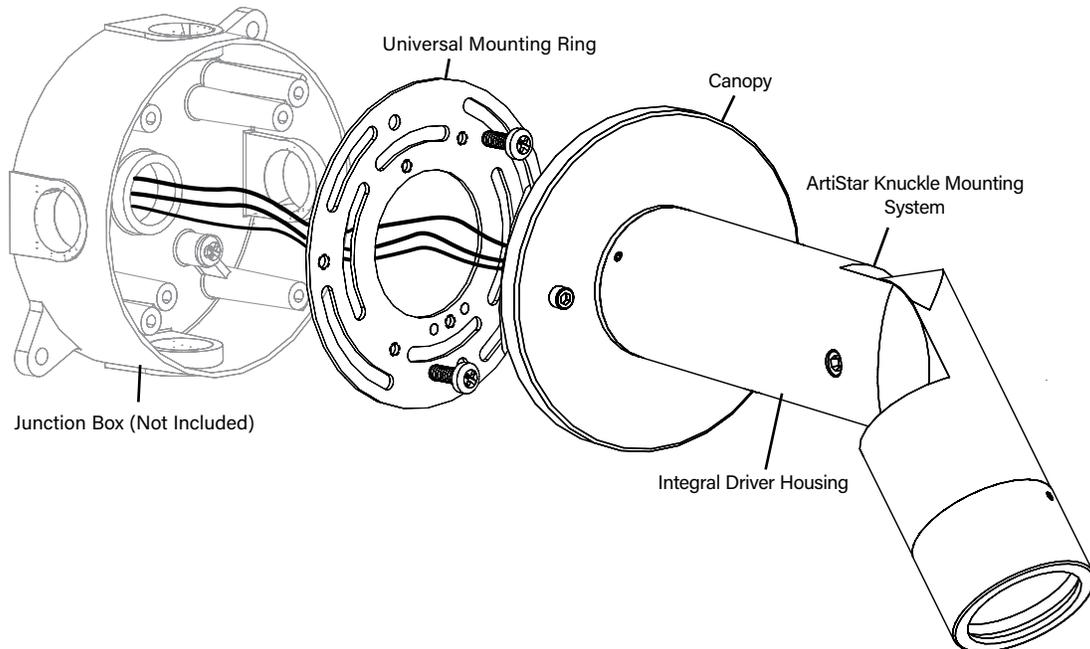

**SAVE THESE INSTRUCTIONS**

### IMPORTANT SAFETY INFORMATION - READ, FOLLOW, AND SAVE ALL SAFETY AND INSTALLATION INSTRUCTIONS

- Product must be installed by a qualified person in a manner consistent with its intended use and in compliance with the National Electrical Code, Canadian Electrical Code, and all Local and Provincial Codes.
- Follow product label information and instructions.
- Qualified Personnel with appropriate personal protective equipment must perform all servicing of this product.
- Before wiring to power supply and during servicing, turn off and lock out power at fuse or circuit breaker before service.
- The use of accessory equipment not recommended by the manufacturer or installed contrary to instructions may cause an unsafe condition. The use of damaged components may cause an unsafe condition and void product warranty.
- Do not block light emanating from product in whole or part, as this may cause an unsafe condition.
- Never operate the fixture with missing or damaged lens. Lens must be cleaned on regular basis.
- Entire fixture may become extremely hot. Do not touch hot lens or fixture body.
- Replace LED assembly only with correct wattage and type of power supply appropriate for LED assembly.
- All gaskets, o-rings and sealing surfaces must be kept clean during installation and service; failure to do this may cause an unsafe condition and void product warranty.

### IMPORTANT LISTINGS AND CERTIFICATIONS

- Suitable for wet locations
- Additionally suitable for mounting within 4 ft. of the ground

LED WALL MOUNT - 10W

## Standard Installation

### Phase 1 - Rough In

Installation of Back box

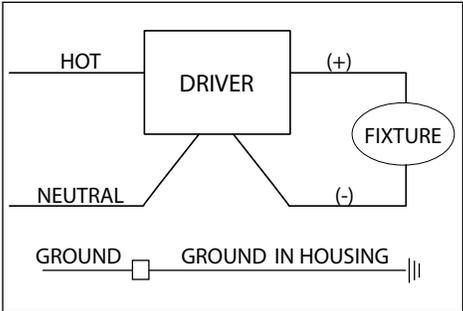

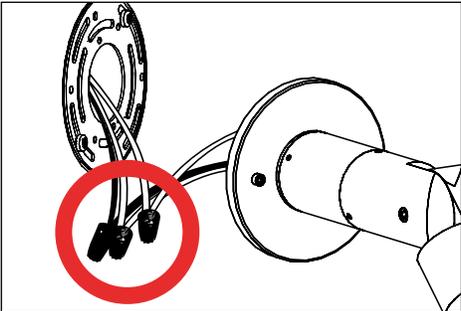

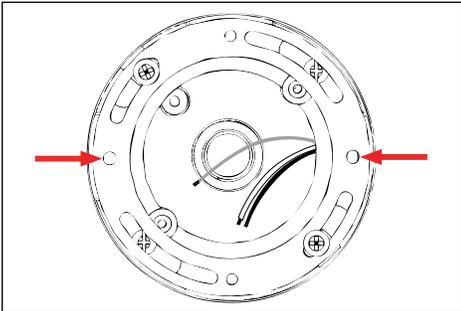

#### Additional Info

- Please follow National and Local electrical codes for your area.
- Suitable for through wire.
- Suitable for installation into combustible materials.
- Rated for 90° C.
- Junction box, universal mounting ring screws, box mounting hardware and gaskets (not included).

1. Install Conduit to be used with this product.
2. Install junction box so that front face is flush with finished wall or ceiling.
3. Connect box to conduit and pull wires for connections (**See Wiring Diagram**).

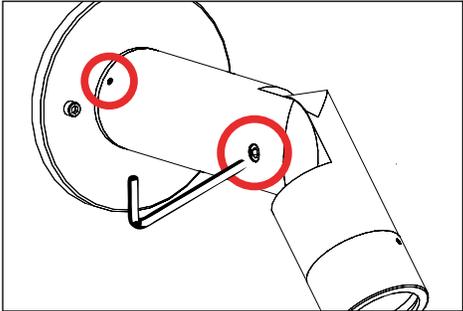

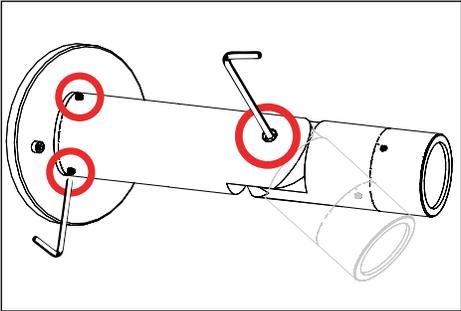

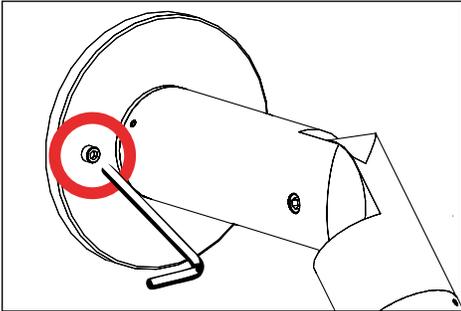

### Phase 2 - Finish Installation of Fixture

1. Install universal mounting ring (included with fixture) using appropriate mounting hardware. Align fixture mounting holes to final mounting position.
2. Pull branch circuit wires necessary for installation. Use waterproof wire connectors to connect driver primary leads to branch circuit wires. Connect incoming ground to ground wire provided in fixture body. **See wiring diagram.**

**WIRING DIAGRAM**

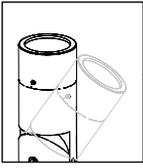

**⚠ All line voltage connections must be made in compliance with the National Electrical Code. Failure to do so will void warranty.**

3. Use a 1/8" allen wrench to mount fixture with two (2) #10-24 hex screws to installed back box. **Do not over tighten.**
4. Use a 3/16" allen wrench to slightly loosen 1/4"-28 stainless steel black oxide socket head cap screw at the knuckle for vertical aiming purposes. Use a 5/64" allen wrench to loosen the three (3) #8-32 stainless steel set screws. Rotate to aim fixture to desired horizontal location.
5. Tighten the three (3) #8-32 stainless steel set screws and 1/4"-28 stainless steel black oxide socket head cap screw at the knuckle to secure all aiming positions.

### IMPORTANT LISTINGS AND CERTIFICATIONS

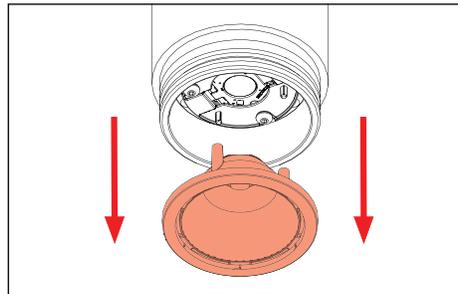

- Suitable for wet locations

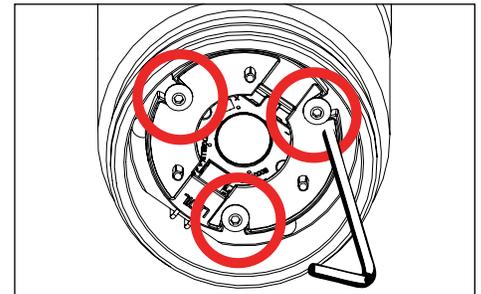

This product is available with field replaceable components. Exclusive interchangeable modular LED components with quick disconnects simplifies upgrades and maintenance when necessary.

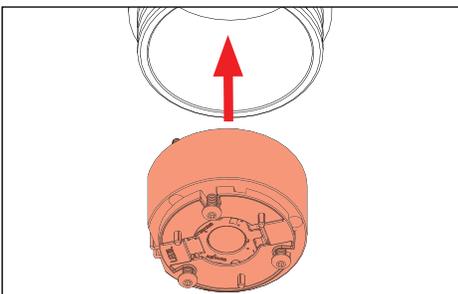

1. Use a 5/64" allen wrench to slightly loosen three (3) #8-32 stainless steel set screws to remove cap.

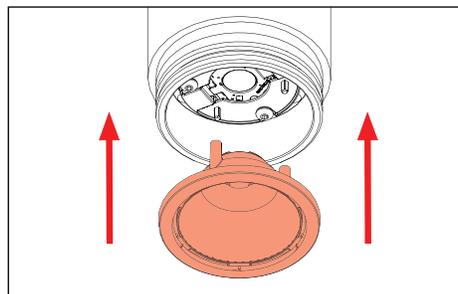

2. Remove optic by pulling gently and lift up.

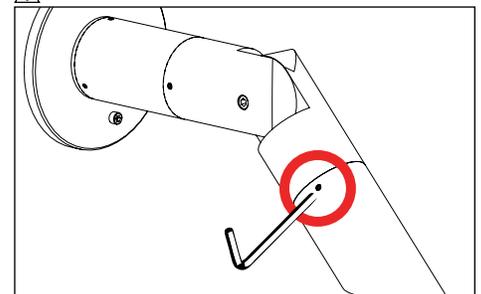

3. Use a .050" allen wrench to loosen three (3) set screws holding LED assembly. Gently lift LED assembly from fixture.

4. Install new LED assembly. Assembly can only connect in one direction. Secure set screws using a .050" allen wrench.

5. Replace optic by lining notches with optic holder, then pressing down gently until secured into place.

6. Place cap on fixture and tighten #8-32 set screws with a 5/64" allen wrench. Top of screws should sit flush with fixture cap.

**Warning:** Do not over tighten set screws. Doing so will compromise o-ring seal and will void warranty. Cap should be able to rotate without force.
